

DELCASSE OFFERS HIS RESIGNATION

Controversies in France Over the Moroccan Question and Neutrality in Far East the Motive—Urged to Reconsider.

PARIS, April 21.—After a service of nearly eight years in the division of foreign affairs, Theophile Delcasse today informed President of the Council Rouvier of his desire and intention to resign.

This announcement came as a surprise and shock to M. Delcasse's colleagues of the cabinet who immediately took steps to endeavor to secure a reconsideration of his determination. A cabinet council was held this afternoon at which M. Rouvier in the absence of M. Delcasse laid the situation before the ministers. It was the unanimous determination of the council that the interests of the country at this time required M. Delcasse's retention of the portfolio of foreign affairs.

At the conclusion of the council M. Rouvier proceeded to the Quai d'Orsay where he held an extended conference with the ministers of foreign affairs. The president of the council, voicing the wishes of President Loubet and the ministers, earnestly besought M. Delcasse to retain his place in the cabinet.

Delcasse May Yield.

It is evident that M. Rouvier's earnest appeal caused M. Delcasse to waver in his determination. When the president of the council came from the interview he stated to his colleagues that he bore a favorable impression of its results. M. Delcasse, he said, had given no final answer, but had promised to reserve his determination until tomorrow when a final answer will be given. It is believed that M. Delcasse will yield to the insistence of President Loubet and the president of the council.

The motives leading up to M. Delcasse's sudden determination to retire from the cabinet are primarily attributed to internal controversies over the Moroccan question and this to some extent has been accentuated by similar controversies over French neutrality in the far east. The opposition has been quick to seize upon both questions and, headed by Socialists and Nationalists, have directed their criticisms against M. Delcasse.

Socialist criticisms have been particularly vehement during recent days on the Moroccan question and this appears to have finally decided M. Delcasse to surrender the question into other hands. It is felt that his retirement now would be hailed in Germany as a German triumph and this is one of the main considerations leading M. Rouvier to earnestly appeal to M. Delcasse to remain in the foreign office.

Made Profound Impression.

The news of Delcasse's intentions made a profound impression in the chamber of deputies where it was first received with incredulity. Later, however, when M. De Lionele, Republican, questioned the government upon the neutrality question and M. Rouvier replied instead of M. Delcasse, it was realized that the report had solid foundation. Several deputies stated that M. Delcasse had sent a letter of resignation to the president of the council and that M. Rouvier had declined to accept it, saying that he would be obliged to present it to the council of ministers. It was a result of this presentation to the council that M. Rouvier persuaded M. Delcasse to withhold his final decision until tomorrow.

The announcement concerning M. Delcasse's intention of resigning was but one of the many incidents in a day of much anxiety throughout the government quarters. Following close upon the heels of the complications with Germany over Morocco, the Franco-Japanese incident suddenly assumed serious proportions, and unusual anxiety was shown in preventing its embroiling France in complications in the far east.

MATHESSON KILLED BY FALLING ROCK

LARGE SLAB OF ROCK FALLS UPON WORKMAN CRUSHING HIS BODY—WAS WORKING ALONE.

Special to the Gazette.

CRIPPLE CREEK, April 21.—H. C. Matheson, employed as a miner at the Jo Dandy mine on Haven Hill, was killed this morning by a large slab of rock falling some 25 feet and completely crushing the life out of the workman.

At what time the accident really occurred is not known. His lifeless body was found at 10:30 o'clock a. m. About 40 minutes before the body was found the foreman of the mine had visited the workings and had conversed with Matheson about the work so it is estimated that he was probably killed about 10:15 o'clock. Deputy Coroner Hall was immediately notified and arrived at the mine at noon, the body having been brought to surface by fellow workmen in the meantime and laid in the shaft house.

Matheson was 27 years old, single, and resided at the Buckhorn boarding house in this city. He had been a resident here for about two years.

Deceased was born in Nova Scotia where his parents still reside. He has two brothers, one living on Bank street in New York, the other on Nevins street in Brooklyn. While all of his relatives have been notified of his death by telegram no response had been received up to a late hour this evening.

A DENVER BOCK KILLS HIMSELF

HENRY BOLLEN COMMITS SUICIDE BY SHOOTING BECAUSE CORA WALKER REFUSED TO MARRY.

DENVER, April 21.—Henry Bollen, a bock, shot himself in the head this afternoon in the alley between Curtis and Arapahoe streets just off Thirtieth street, killing himself instantly. Earlier in the day he had threatened to kill Mrs. Cora Walker because she refused to marry him. Mrs. Walker was deserted by her husband after being married only one day and her husband carried away her money and diamonds.

RUSSIAN SQUADRON

ST. PETERSBURG, April 21.—Reports are current here that the Russian second squadron has already left Kamranh bay and is on the way to Vladivostok but the government will proceed with action on the Japanese protests as if the squadron had not continued its voyage.

A special service was held in the admiralty church yesterday to offer prayers for the "safety" of the squadron and its successful arrival at Vladivostok.

SAIGON, April 21.—Orders have been given for the disarmament of the Russian cruiser Diana which took refuge under one of the coast forts in August, 1904. She has undergone important repairs to her machinery, which will now be handed over to the French authorities here.

DRUNKEN SOLDIER SHOT INTO CROWD

KILLED ONE AND WOUNDED SIX IN WARSAW WHILE RE-SISTING ARREST—SHOOTING AT BIALYSTOK.

WARSAW, April 21.—11:30 p. m.—A drunken soldier at 8 o'clock this evening fired his revolver in the crowded streets of this city, killing one and wounding six persons, one of them probably fatally. A patrol had attempted to arrest him, but failed, and as he fled he fired in all directions. Among the wounded are two soldiers, a policeman and two Jews. A workman finally captured the miscreant.

BIALYSTOK, Russian Poland, April 21.—An unknown man today fired at the burgomaster in the street. The man missed his aim, but the bullet killed a passing Cossack.

At another place in the city, Police Inspector Sawitzki was attacked by two men who fired five shots at him, all taking effect. The assailants escaped.

PREPARES OPINION FOR THE GOVERNOR

ATTORNEY GENERAL MILLER, IT IS BELIEVED WILL UP-HOLD CONSTITUTIONALITY OF BILL.

DENVER, April 21.—Attorney General Miller spent all day working on his opinion on house bill No. 178 which will be given to Governor McDonald Monday. The opinion, it is believed will uphold the bill as constitutional. All of the other state offices were closed at 10 o'clock today in recognition of Arbor day.

DEATH OF UNITED STATES SENATOR ORVILLE H. PLATT

Connecticut Statesman Passes Away at His Home After Illness of a Few Weeks of Bronchial Pneumonia—Funeral Next Week.

WASHINGTON, Conn., April 21.—P. Platt of the United States circuit court.

The funeral will probably be held next Tuesday, with services in the Congregational church. Both houses will be represented.

Senator Platt contracted a severe cold while the Swayne impeachment trial at the national capital was in progress before the senate. He had not fully recovered from it at the time of Senator Hawley's funeral. He stood in the railway station at Hartford for some time awaiting the arrival of the train on which General Hawley's body was brought from Washington. During the wait he complained of a slight chill, in consequence of which after the exercises at the capital he returned direct to his country home in Washington.

On Friday, March 31, the senator was taken with the illness which proved fatal. The first attack was of bronchitis-pneumonia of a comparatively slight nature. This was followed on April 4 by a second infection which lasted for about a week. On April 11 he showed signs of improvement so that hopes of recovery were entertained, but soon after that the lung abscess began to develop and on April 18 he had a bad chill. The following day his physicians and nurses feared it would be the end but he rallied from that attack. Other chills, however, followed at intervals, culminating in a particularly severe one this forenoon between 9 and 11 o'clock. Although the sick man seemed to rally somewhat from this attack and became comfortable during the afternoon it was evident that his life was ebbing away. The physician said that with another chill life would end, and this proved true for the end came shortly after.

SALOON BURNED.

SPECIAL TO THE GAZETTE.

VICTOR, April 21.—The saloon of Pat Breen at the corner of Second and Spruce was destroyed by fire at 4:30 o'clock this morning. The damage to the goods and building will amount to between \$400 and \$500.

SENATOR ORVILLE H. PLATT.

FLOODS OF FOREIGNERS

FOUR TRANSATLANTIC STEAMERS BRING NEARLY 10,000 IMMIGRANTS TO NEW YORK.

NEW YORK, April 21.—Four transatlantic steamers which arrived at this port today brought 9,675 steerage passengers, the largest number ever passing quarantine in one day. It was impossible to handle the great throng in one day and at least 4,000 would-be citizens had to remain over night aboard the ships on which they arrived; as 6,000 is the limit of Ellis Island's clearing capacity. Until last night 62,791 immigrants had been landed this month, compared with 42,447 at the same date in April last year.

SOME QUESTION AS TO IDENTITY OF DEAD MAN.

Special to the Gazette.

VICTOR, April 21.—The identity of a man who always called himself Peter Jacobson is causing considerable mystery in this city. His body now lies in an undertaking parlor awaiting orders from relatives or friends in regard to his burial.

Jacobson walked into the Red Cross hospital last Sunday afternoon. Asking for admittance he was immediately examined and found to be dangerously ill of pneumonia, together with a complication of other diseases and although he was given the best of attention he died yesterday. No one seems to know where he came from or who his relatives are.

Deceased worked on the Granite property under the name of Peter Jacobson, but it is believed that this is not his real name.

EAGLES EXPECT THE PRESIDENT

CRIPPLE CREEK AERIE ELATED AT PROSPECT OF VISIT FROM THE GREATEST EAGLE OF THEM ALL.

Special to the Gazette.

CRIPPLE CREEK, April 21.—Members of the lodge of Eagles are quite elated over the possibility of bringing President Roosevelt for a visit to this city.

The president, who is an enthusiastic member of a Wyoming aerie of Eagles, today sent word to Secretary Mack W. Collins of the local aerie that it was likely that he would visit the Cripple Creek aerie and if so the Wyoming aerie would come in a body to this city to greet their greatest brother in the land.

STUDENT FALLS DOWN A 30-FOOT STOPE IN AJAX.

Special to the Gazette.

VICTOR, April 21.—E. C. Vinal, one of the students from the State School of Mines, who is visiting in the district with the sophomore class, fell down a soft stope in the Ajax mine today while stepping aside for a trammer to pass. Aside from being bruised his condition is not serious.

PREPARING FOR FOURTH OF JULY CELEBRATION.

Special to the Gazette.

CRIPPLE CREEK, April 21.—Cripple Creek is to have a big Fourth of July celebration and in connection with it the new court house will probably be dedicated.

Arrangements are now under way for the event. The local G. A. R. post will have charge of the dedication of the court house and expect Governor McDonald to attend the celebration and participate.

Sports of all kind will be held on Bennett avenue which will be the center of attraction and good prizes are to be hung up for the winners.

BOAK IS HEAD CONSUL OF THE WOODMEN OF THE WORLD

LOS ANGELES, Calif., April 21.—The convention of the Woodmen of the World late this afternoon elected I. L. Boak, of Denver, head consul.

CHICAGO DENVER EXPRESS COLLIDES WITH SWITCHING ENGINE AT LINCOLN, NEBRASKA.

LINCOLN, Neb., April 21.—The Chicago-Denver express on the Rock Island collided with a switching engine just at the city limits this evening, completely wrecking both engines and damaging the mail and express cars. R. L. Latta, mail clerk, was seriously injured. His leg was crushed and he was internally hurt. A number of passengers were slightly injured, but continued their journey. The engine-men escaped by jumping.

MEASURES FOR NEUTRALITY.

In order to secure definite co-operation between the three departments of the government—naval, colonial and foreign—a conference was held this afternoon between leading representatives of each department. This brought about a clear understanding regarding the measures necessary for maintaining the

NOBLE ACCEPTS POSITIONS WITH CANAL ENGINEERS.

WASHINGTON, April 21.—Secretary Taft today received the acceptance by Alfred Noble of his appointment as one of the board of consulting engineers of the Panama canal commission. Mr. Noble constructed the "Go" canal and is the consulting engineer of the Pennsylvania railroad in charge of its tunnel project at New York.

SEOU, APRIL 21.—M. HAYASHI GOES HOME.

SEOU, April 21.—M. Hayashi, the Japanese minister to Korea, left here today for Japan.

DELCASSE RESIGNS His Resignation

Controversies in France Over the Moroccan Question and Neutrality in Far East: the Motive—Urged to Reconsider.

PARIS, April 21.—After a service of nearly eight years in the division of foreign affairs, Theophile Delcasse today informed President of the council Rouvier of his desire and intention to resign.

This announcement came as a surprise and shock to M. Delcasse's colleagues on the cabinet who immediately took steps to endeavor to secure reconsideration of his determination. A cabinet meeting was held this afternoon at which M. Rouvier, in the absence of M. Delcasse, laid the situation before the ministers. It was the unanimous determination of the council that the interests of the country at this time required M. Delcasse's retention of the portfolio of foreign affairs.

Premier Rouvier's Statement.

The anticipated debate in the chamber of deputies on the question of neutrality was postponed owing to the Delcasse announcement. The only reference to the subject was the inquiry by Deputy De Lionele and the reply by Premier Rouvier who said:

Formal precise and repeated orders have been given our agents in Indo-China to assure the absolute neutrality of France in Indo-Chinese waters. It was stated at the foreign office late today that no representations of any kind had been presented by Great Britain concerning the neutrality of France. At the same time it is anticipated that some such representations will be made. The fact that the British ambassador Sir Francis Bertie has given up his Easter holiday and will return to Paris tonight after a conference with Foreign Secretary Lansdowne appears to support this view. However the cordial relations existing between France and Great Britain would doubtless modify any representations so as to relieve them from serious significance. Anything like an energetic protest from Great Britain at this time would deeply wound France who relies on the Anglo-French entente as a counterpoise to Germany's menace over Morocco.

Delcasse-May Yield.

It is evident that M. Rouvier's earnest appeal caused M. Delcasse to waver in his determination. When the president of the council came from the interview he stated to his colleagues that he bore a favorable impression of its results. M. Delcasse he said had given no final answer but had promised to reserve his determination until tomorrow when a final answer will be given. It is believed that M. Delcasse will yield to the insistence of President Rouvier and the president of the council.

The motives leading up to M. Delcasse's sudden determination to retire from the cabinet are primarily attributed to internal controversies over the Moroccan question and this to some extent has been accentuated by similar controversies over French neutrality in the far east. The opposition has been quick to seize upon both questions and, headed by Socialists and Radicals, have directed their criticisms against M. Delcasse.

Socialist criticisms have been particularly vehement during recent days on the Moroccan question and this appears to have finally decided M. Delcasse to surrender the question on other hands. It is felt that his retirement now would be hailed in Germany as a German triumph and this is one of the main considerations leading M. Rouvier to earnestly appeal to M. Delcasse to remain in the foreign office.

Made Profound Impression.

The news of Delcasse's intentions made a profound impression in the chamber of deputies where it was first received with incredulity. Later however when M. De Lionele, Republican, questioned the government upon the neutrality question and M. Rouvier replied instead of M. Delcasse, it was realized that the report had solid foundation. Several deputies stated that M. Delcasse had sent a letter of resignation to the president of the council and that M. Rouvier had declined to accept it, saying that he would be obliged to present it to the council of ministers. It was a result of this presentation to the council that M. Rouvier persuaded M. Delcasse to withhold his final decision until tomorrow.

The announcement concerning M. Delcasse's intention of resigning was but one of the many incidents in a day of much anxiety throughout the government quarters. Following close upon the heels of the complications with Germany over Morocco, the Franco-Japanese incident suddenly assumed serious proportions, and unusual energy was shown in preventing its embroiling France in complications in the far east.

Measures for Neutrality.

MATHEWSON KILLED ON CO. DANDY MINE

LARGE SLAB OF ROCK FALLS UPON WORKMAN CRUSHING HIS BODY—WAS WORK- ING ALONE.

Special to the Gazette.
CRIPPLE CREEK, April 21.—H. C. Mathewson, employed as a mucker at the Jo Dandy mine on Raven hill was killed this morning by a large slab of rock falling some 30 feet and completely crushing the life out of the workman.

At what time the accident really occurred is not known. His lifeless body was found at 10:30 o'clock a. m. About 40 minutes before the body was found the foreman of the mine had visited the workings and had conversed with Mathewson about the work so it is estimated that he was probably killed about 10:15 o'clock. Deputy Coroner Hall was immediately notified and arrived at the mine at noon the body having been brought to surface by fellow workmen in the meantime and laid in the shaft house.

Mathewson was 27 years old single and resided at the Buckhorn boarding house in this city. He had been a resident here for about two years.

Deceased was born in Nova Scotia where his parents still reside. He has a brother, one living on Bank street in New York the other on Nevins street in Brooklyn. While all of his relatives have been notified of his death by telegram no response had been received up to a late hour this evening.

STORY OF HUNTING PARTY

Members of the President's Hunting Party Condemn Fake Reports.

GLENWOOD SPRINGS, April 21.—In spite of the fact that Secretary Loeb rode 30 miles from the president's camp yesterday he spent several hours in the saddle today after disposing of an unusually heavy mail. He is preparing himself so that he can make the trip with greater ease.

A large bundle of newspapers was sent to the camp by Elmer Chittenden, the courier. Many of the papers contained fake stories of the president's hunt. The members of the hunting party were greatly displeased when they learned of the character of some of the stories printed by several papers having correspondents at Newcastle. The correspondents located there have no facilities for getting news and they are entirely out of touch with Secretary Loeb.

Preparations are under way here to give President Roosevelt a royal welcome on May 13 when he will arrive from Redstone to spend the night before returning to Washington. The pelt of the bear killed by the president is being mounted as a rug. The skin of the head will be drawn over a papier mache form but natural teeth will be used. The skull is to be added to the collection of C. Hart Merriam, biologist of the department of agriculture.

DENVER BOSS KILLS HIMSELF

HENRY BOLLEN COMMITTS SUICIDE BY SHOOTING BECAUSE CORA WALKER REFUSED TO MARRY

DENVER, April 21.—Henry Bollen a well known local character shot himself in the head this afternoon in the act of jumping out of a window. He had just been refused by Cora Walker, a well known local character, to marry her. Mrs. Walker was seen by a friend on the day he shot himself. She was seen by her husband after being married only one day and her husband carried away her money and diamonds.

RUSSIAN SQUADRON RECEIVED AT VLAZOVKA

ST. PETERSBURG, April 21.—Reports are current here that the Russian squadron has been let to Amurh bay and is on the way to Vladivostok. It is believed that the squadron had not continued its voyage.

A special party was held in the admiralty church yesterday to offer prayers for the safety of the squadron and its successful arrival at Vladivostok.

SAIGON, April 21.—Orders have been given for the disarmament of the Russian cruiser Diana which took refuge under one of the coast forts in August 1904. She has undergone important repairs in her machinery which will be handed over to the French authorities here.

FLOODS OF FOREIGNERS

FOUR TRANSATLANTIC STEAMERS BRING NEARLY 10,000 IMMIGRANTS TO NEW YORK.

NEW YORK, April 21.—Four transatlantic steamers which arrived at this port today brought 9,675 steerage passengers, the largest number ever passing quarantine in one day. It was impossible to handle the great throng in one day and at least 4,000 would-be citizens had to remain over night aboard the ships on which they arrived, as 6,000 is the limit of Ellis Island's clearing capacity. Until last night 62,781 immigrants had been landed this month, compared with 42,447 to the same date in April last year.

**STUDENT FALLS DOWN A
80-FOOT STOPE IN AJAX.**

Special to the Gazette.
"VICTOR, April 21.—E. C. Vinal, one of the students from the State School of Mines who is visiting in the district with the sophomore class fell down a soft stope in the Ajax mine today while stepping aside for a trammer to pass. Aside from being bruised his condition is not serious.

**CROSBY BADLY INJURED
BY FALL FROM A WAGON.**

Special to the Gazette.
"VICTOR, April 21.—J. Crosby, employed by the Colorado Trading and Transfer company fell from a coal wagon today, sustaining severe injuries. Aside from concussion of the brain he has a scalp wound six inches long.

CLEAN-UP BY THE CHIEF OF POLICE

A FEW ARRESTS ALREADY MADE AND SOME ARE LEAV- ING TOWN—GENERAL RAID TONIGHT.

Special to the Gazette.
CRIPPLE CREEK, April 21.—Chief of Police John Sharp is making war on the gamblers and all games of chance in this city. Nothing of a startling nature has occurred yet in the shape of seizing gambling paraphernalia or making wholesale arrests but Mr. Sharp will make a general clean-up tomorrow night.

When asked today what his plans were to be in reference to the gambling question he stated: "We are going to clean up the town and clean it up properly."

Mr. Sharp has the full co-operation of the district attorney and the district court and it is believed that if any cases come before this tribunal the full limit of the law will be given each and every offender.

A small raid was made by the chief of police and some of his officers early this morning and the round-up, which was made in the lower district resulted in the arrest of five men and the "flooding" of a number of others. The chief was watching the trains and a number of those had spotted are leaving for greener pastures. The final clean-up will not be made until tomorrow night and in the meantime the undesirable ones are having the chance to get out and save trouble.

DRUNKEN SOLDIER SECT INTO CROWD

KILLED ONE AND WOUNDED SIX IN WARSAW WHILE RE- SISTING ARREST—SHOOT- ING AT BIALYSTOK

WARSAW, April 21.—At 10 p. m. a drunken soldier at 8 o'clock this evening fired his revolver into the crowded streets of this city, killing one and wounding six persons, one of them probably fatally. A patrol had attempted to arrest him but failed, and as he fled he fired in all directions. Among the wounded were a soldier, a policeman and two Jews. A workman finally captured the murderer.

BIALYSTOK, Russia, Poland, April 21.—An unknown man today fired at the burgomaster in the street. The burgomaster was shot in the chest and killed a passing Cossack.

At another place in the city, Police Inspector Sawicki was attacked by two men who fired five shots at him, all taking effect. The assailants escaped.

WARSAW, April 21.—At 10 p. m. a dispatch from St. Petersburg says that General Maximovitch has resigned the governorship of Warsaw owing to differences with the committee of ministers regarding Polish concessions. The report appears to be well founded and if true it will seriously affect the situation in Warsaw.

PREPARES OPINION FOR THE GOVERNOR

ATTORNEY GENERAL MILLER, IT IS BELIEVED WILL UP- HOLD CONSTITUTIONAL- ITY OF BILL.

DENVER, April 21.—Attorney General Miller spent all day working on his opinion on house bill No. 173 which will be given to Governor McDonald Monday. The opinion it is believed will uphold the bill as constitutional. All of the other state officers were closed at 10 o'clock today in recognition of Arbor day.

SCIENTIFIC STUDY OF CRIPPLE CREEK

PLAN PROPOSED FOR STATE SCHOOL OF MINES, AIDED BY THE STATE, TO DEVELOP MINING PROPERTY.

Special to the Gazette.
CRIPPLE CREEK, April 21.—It is understood that the State School of Mines and the state of Colorado are about to join hands in a enterprise which will mean a scientific development of the camp. The year's visit of the graduating class of the institution to the district are to be used in the bonding and leasing of a large acreage in the district which will be used for scientific purposes.

The idea now is to have a bill introduced in the next legislature asking the state to appropriate the money for the bond and lease of some of the best property in the district. If this is successful then a deep shaft will be sunk into the side of the mountain and the idea of a geological survey of the district will be carried out. The suggestion has been made that the state donate to the school a large piece of territory which it owns on Grouse mountain. If this were done and a shipping mine were opened up, the producing area would be greatly extended.

Prof. R. E. Young is now in the district with a class of 25 members of the school visiting several of the prominent mines. This afternoon they were taken through the Abie Lincoln where they studied the operation of the Crane ore washer and sorting table.

DEATH OF UNITED STATES SENATOR ORVILLE H. PLATT

Connecticut Statesman Passes Away at His Home After Illness of a Few Weeks of Bronchial Pneu- monia—Funeral Next Week.

WASHINGTON, April 21.—"P. Platt of the United States circuit court." The funeral will probably be held next Tuesday with services in the congressional church. Both houses will be represented.

Senator Platt contracted a severe cold while the Senate impeachment trial at the national capital was in progress before the senate. He had not fully recovered from it at the time of Senator Hawley's funeral. He stood in the railway station at Hartford for some time awaiting the arrival of the train on which General Hawley's body was brought from Washington. During the wait he complained of a slight chill in consequence of which after the exercises at the capital he returned direct to his country home in Washington.

On Friday, March 31, the senator was taken with the illness which proved fatal. The first attack was of bronchitis-pneumonia of a comparatively slight nature. This was followed on April 4 by a second infection which lasted for about a week. On April 11 he showed signs of improvement so that hopes of recovery were entertained but soon after that the lung abscess began to develop and on April 15 he had a bad chill. The following day his physicians and nurses feared it would be the end and he rallied from that attack. Other onsets however, followed at intervals, culminating in a particularly severe one this forenoon between 9 and 11 o'clock. Although the sick man seemed to rally somewhat from this attack and became comfortable during the afternoon it was evident that his life was ebbing away. The physician said that with another chill life would end, and this proved true for the end came shortly after.

SALOON BURNED.

Special to the Gazette.
"VICTOR, April 21.—The saloon of Pat Green at the corner of Second and Elm had answered questions put to him by those at the bedside showing that his mind was clear. In the room at the time were Mrs. Platt and the senator's only son, Judge James Platt.

SENATOR ORVILLE H. PLATT.

SOME QUESTION AS TO IDENTITY OF DEAD MAN.

Special to the Gazette.
"VICTOR, April 21.—The identity of a man who always called himself Peter Jacobson is causing considerable mystery in this city. His body now lies in an undertaking parlor awaiting orders from relatives or friends in regard to his burial.

Jacobson walked into the Red Cross hospital last Sunday afternoon. Asking for admittance he was immediately examined and found to be dangerously ill of pneumonia, together with a complication of other diseases and although he was given the best of attention he died yesterday. No one seems to know where he came from or who his relatives are.

Deceased worked on the Granite property under the name of Peter Jacobson, but it is believed that this is not his real name.

"MAY CLERK IS BADLY INJURED

CHICAGO-DENVER EXPRESS COL- LIDES WITH SWITCHING ENGINE AT LINCOLN, NEBRASKA

LINCOLN, Neb., April 21.—The Chicago-Denver express on the Rock Island collided with a switching engine just at the city limits this evening, completely wrecking both engines and damaging the mail and express cars. R. L. Latta, mail clerk, was seriously injured. His leg was crushed and he was internally hurt. A number of passengers were slightly injured, but continued their journey. The engine-men escaped by jumping.

Detroit	1	1	.500
St. Louis	2	3	.400
Boston	0	4	.000

GAMES TODAY.

Boston at Brooklyn.
New York at Philadelphia.
Cincinnati at Chicago.
St. Louis at Pittsburg.

GAMES CALLED.

Pittsburg, April 21.—Pittsburg-St. Louis National game called in third inning, rain. Score, Pittsburg, 6, St. Louis 0.

POSTPONED GAMES.

ST. LOUIS, April 21.—Cleveland and St. Louis game postponed, wet grounds.

DETROIT, April 21.—Detroit-Chicago game postponed, rain.

At New York.—The Washington-New York game was called at the end of the fourth inning, rain.

GAMES TODAY.

Cleveland at St. Louis.
Washington at New York.
Philadelphia at Boston.

CARRIED OFF BY VISITORS.

CHICAGO, April 21.—Two costly errors and Lundgren's wildness presented the visitors all their runs and the game today. Chas. Kitchin in good form for Cincinnati, Maloney, being the only local man to solve his delivery. Attendance 2,000. Score.

BOSTON BEATEN AT HOME.

BOSTON, April 21.—In the presence of more than 18,000 people Boston today lost the opening game in this city. Up to the eighth inning Gibson was invincible, holding Philadelphia to a lone hit and striking out eleven men. Attendance 15,000. Score.

AMERICAN ASSOCIATION.

LOUISVILLE, April 21.—Louisville, the St. Paul, 1.

INDIANAPOLIS, April 21.—The Indianapolis-outlaw game was postponed, wet grounds.

COLUMBUS, April 21.—The Columbus-Minneapolis game postponed, rain.

TOLEDO, April 21.—Toledo-Kent City game postponed, wet grounds.

EASTER IS LATER

And, of course, everybody is interested in everything pertaining to the day THE SUNDAY GAZETTE AND TELEGRAPH will contain a variety of special articles and pictures on this subject which will make it by far the best Easter number to be had in Colorado Springs.

A conspicuous feature will be a drawing "The Easter Gift," by Lola Stoddard, a young artist of this city whose work is likely to attract much attention in the future.

"The Growth of the Easter Spirit," a splendid article on how the day came to be so generally observed.

"Easter Today and Yesterday," Mrs. Jean S. Remv writes of pagan and Christian celebrations in every age and clime.

"Easter Music," "Easter Flowers," "The Humor and Pathos of Easter." Short articles on various aspects of the day.

There will be an intensely interesting article on John Edward Sullivan Addicks, the man who spent a fortune in trying to buy a seat in the United States senate, who debauched all Delaware in the attempt, and failed to attain his object. Illustrated from photographs.

"Mrs. Howard Gould—One of the Richest Women in the United States, and Yet She Refuses to Pay." An illustrated story of this interesting woman. She is kept busy fighting law suits because she will not pay her debts.

How Easter Was First Celebrated in the United States, with illustrations.

These are only a few.

GET THE SUNDAY GAZETTE AND TELEGRAPH AND READ THEM ALL.

FRANCE DESIRES WORLD'S PEACE

Orders Given to Russia to Keep Out of French Harbors—Tokio Making Urgent Representations Upon Subject

PARIS, April 21.—A telegram received here from St. Petersburg and understood to be of official origin says:

"The Russian admiralty has notified Admiral Rojestvensky of the grave danger to peace which is entailed if the stay of his squadron off the coast of Annam be prolonged contrary to the laws of neutrality. No doubt is entertained that the admiralty will carry out the formal instructions sent to him."

TOKIO, April 21.—8:30 a. m.—The Japanese regard the Kamranh bay incident with a growing feeling of resentment and bitterness towards France. It is popularly believed that the Russian fleet is still at Kamranh bay and is making the free use of the port.

The demands for strong action on the part of Japan are daily growing louder. The political parties and other organizations are passing resolutions condemning France's alleged violation of neutrality. It is proposed to hold a great popular demonstration.

PARIS, April 21.—As a result of communications between the governments at Paris and St. Petersburg, the Russian government has forwarded urgent orders to Admiral Rojestvensky to rigorously respect the neutrality of French waters. This is a precautionary measure.

In addition special instructions have been sent to the governor general of Indo-China, M. Beau, and Foreign Minister Delcasse has instructed the French minister at Tokio to give the Japanese minister for foreign affairs assurance that it is France's purpose to preserve strict neutrality, these being similar to the assurances given to Dr. Motono the Japanese minister at Paris.

According to the official view the foregoing steps should exercise a distinctly calming influence upon Japan as they show that France has adopted all available means to insure respect of neutrality of French waters. The officials say that the only additional measure open to the use of French warships to employ force in expelling Rojestvensky's squadron. Such a course, however, is said to be impossible owing to the small number of French ships in Indo-Chinese waters.

Moreover, as an official remarked, France is not in the habit of resorting to such extreme measures as using force. This is particularly true in the case of Russia, owing to the complications which might arise from France adopting forcible steps against Russia.

Therefore, the instructions already given from Paris and St. Petersburg are relied upon to prevent Admiral Rojestvensky from encroaching upon French territorial waters.

FRANCE DESIRES WORLD'S PEACE

PARIS, April 21.—Japan's representation has had the effect of bringing the Franco-Japanese incident to the front rank of public attention. The leading officials here adopt the government view that Foreign Minister Delcasse's assurance calm the situation. Deputy Delcasse, (official representative), the foreign minister of marine and a long time governor of Indo-China, says in the *Siecle*:

"We cannot ignore the fact that the Japanese people are greatly excited by the war and that public opinion may drive the Tokio cabinet to take some action. We therefore insist that the Rouvier ministry rapidly adopt steps in conformity with the interests of France and the maintenance of peace. All France agrees that the government has the duty of protecting French neutrality and thus preserving the world's peace."

The *Humanite*, Socialist, says:

"If the impending naval battle occurs in Indo-Chinese waters and the Russian squadron seeks refuge in our ports then France may be suddenly dragged into a conflict in spite of herself that would mean war and the movement which through feebleness or blindness permitted such a catastrophe to occur would bear one of the most terrible responsibilities history has ever known."

Dr. Motono said his request was that France observe neutrality by adopting all the necessary measures for preventing Admiral Rojestvensky's squadron from remaining any longer in French territorial waters at Kamranh bay.

PARIS, April 21.—As a result of communications between the governments at Paris and St. Petersburg, the Russian government has forwarded urgent orders to Admiral Rojestvensky to rigorously respect the neutrality of French waters. This is a precautionary measure.

In addition special instructions have been sent to the governor general of Indo-China, M. Beau, and Foreign Minister Delcasse has instructed the French minister at Tokio to give the Japanese minister for foreign affairs assurance that it is France's purpose to preserve strict neutrality, these being similar to the assurances given to Dr. Motono the Japanese minister at Paris.

RUSSIA DOES NOT BUY SOUTH AMERICAN SHIPS

ST. PETERSBURG, April 21.—The admiralty denies the report circulated here that Russia has bought several South American war ships through Paris intermediaries.

BRITISH SQUADRON IS READY FOR BUSINESS

HONGKONG, April 21.—There is a noticeable activity among the vessels of the British China squadron. The armored cruiser *Hogue* has been ordered to be in readiness to proceed to sea at two hours' notice with full steam.

UNITED STATES GETS A COPY OF JAPAN'S NOTE

WASHINGTON, April 21.—Mr. Hick, the Japanese charge d'affaires, here has presented to Secretary Taft a copy of the note presented by the Japanese minister in Paris yesterday to the French foreign office in relation to the observance of neutrality toward Rojestvensky's fleet.

Secretary Taft, after reading the note carefully, forwarded it by mail to Secretary Loeb, for transmission to the president.

This is done merely for information, for the note itself requires no action at this stage on the part of the government. It is not deemed best to make public its text here.

A telegram was received by Secretary Taft today from Secretary Loeb announcing his return from the president's hunting camp to Glenwood Springs, and French territorial waters at Kamranh bay.

ST. PETERSBURG, April 21.—The personnel of the Gorenskin commission appointed to discuss questions relating to peasant tenure of lands was announced today. It includes M. Stuchinsky, formerly chief adjutant of the Russian interior department, M. Von Plehve, son of the late interior minister, and other adherents of the former minister, giving it a decided reactionary tone.

The position of M. Witte, president of the committee of ministers, grows more and more untenable. Interior Minister Bouligin has proposed to the council of the empire that the question of higher education, confided to the committee of ministers, be transferred to a special commission and the *Slovo* again publishes a report that M. Witte will retire immediately, intimating that his successor will be Count Solsky, president of the economic department of the committee of ministers.

An interesting report is current that

PAUL LESSAR DIES IN PEKING

RUSSIAN AMBASSADOR FAILS TO RECOVER FROM OPERATION PERFORMED A FEW WEEKS AGO

PEKING, April 21.—M. Paul Lessar, Russian minister to China, whose foot was recently amputated, died last night. M. Lessar, who was councillor of the Russian embassy in London, was appointed Russian minister to China July 12, 1901. The deceased minister distinguished himself as the negotiator with the Chinese of the proposed amendments to the Russo-Chinese Manchurian treaty.

Early in 1901 he began a series of meetings with Prince Qing and Wang Wen-Shao, who urged strong modifications of the old agreement, made with the late Li Hung Chang, in order to maintain the sovereignty of China over Manchuria. Russia, through M. Lessar, agreed to some of the Chinese demands, but the war with Japan ended the diplomatic negotiations on the subject.

INDIAN EARTHQUAKE FEELT IN BALTIMORE

SEISMIC DISTURBANCE RECORDED IN JOHN'S HOPKINS IN 15 MINUTES AFTER IT HAPPENED.

BALTIMORE, April 21.—The recent disastrous earthquake in India sent a tremor half way around the world, which reached Baltimore in fifteen minutes. This is the record shown by the weekly examination of the seismograph films at Johns Hopkins university.

Dr. H. F. Reid, of the United States geological survey, in charge of the seismograph at the university, put in a new film only a few hours before the shock occurred. On the strip of paper about eleven yards long and two inches wide, is a series of irregular, wavy-like lines rising like a miniature mountain range from a long and otherwise perfectly straight line.

From this record it appears that the shock first reached Baltimore at about 8:15 p. m., April 21. The most noticeable disturbance took place at 8:52 and lasted about twenty-five minutes.

The whole duration was about three hours. Fighting on the difference in time, the film shows that the first shock was recorded here approximately fifteen minutes after it shook India.

HAMBURG STEAMER PENNSYLVANIA BRINGS OVER 3,000 PASSENGERS TO NEW YORK TODAY

NEW YORK, April 21.—When the Hamburg-American line steam *Pennsylvania* arrived here today from Hamburg, she had on board the largest number of passengers ever brought to this port on a single steamer. The whole number, including cabin and steerage was 3,066. Of these 2,830 were in the steerage.

Only once in the past has this number of steerage passengers been exceeded. That was about two years ago, when the steamer *Bulgaria* of the same line brought in 2,899 passengers in her third-class quarters.

PHILADELPHIA WANTS BODY OF PAUL JONES

PHILADELPHIA, April 21.—The upper branch of city councils by an unanimous vote has adopted a resolution that the government be requested to designate the city of Philadelphia as the place for the burial of the remains of Admiral John Paul Jones.

The resolution makes the request on the fact that the American navy had its origin in Philadelphia, in revolutionary times, and that the commission of John Paul Jones as lieutenant in the American navy and his flag was received by him from the city of Philadelphia.

WILL KEEP A CHECK ON STATE'S EXPENSE

DENVER, April 21.—Auditor Bent today sent out requests to all state institutions to forward without delay duplicates of all contracts to be made in the future for supplies for different institutions.

This is a new departure and is done for the purpose of keeping a closer check upon expenditures of money than has heretofore been made. Auditor Bent discovered an old statute which required forwarding such duplicates and upon the advice of Attorney General Miller that the statute was still in force, the auditor issued his request as above stated. It has been the habit of state institutions to report on expenses at the end of each term, and it has often been the case that they were found to be largely in debt, which might have been avoided had they reported on each contract as made.

JEFFERSON'S CONDITION IS SATISFACTORY

WEST PALM BEACH, Fla., April 21.—Mr. Jefferson's condition today is somewhat improved as compared with yesterday. He had a good night, and is resting quietly.

President's Party Finds New Tracks and Enter Into the Sport With zest.

GLENWOOD SPRINGS, Colo., April 21.—After a day's enforced rest, the president's hunting party started out bright and early today. The snow which has fallen obliterated all old tracks and the party hoped to get close to a bear by nightfall, the guides having located several fresh tracks. The mail was unusually heavy and Secretary Loeb and the two stenographers put in most of the day in disposing of it.

Special to the Gazette.

NEWCASTLE, April 21.—A telephone message from a ranch in the neighborhood of the president's camp states that the weather is clearing, and that the president, Mr. P. B. Stewart, Dr. Lambert, and the hounds are now on the trail of another big bear.

Jack Frye, head cook, prepared an appetizing breakfast of flapjacks, bacon and coffee to which the party did full justice. Fifteen minutes later they were in the saddle for the three days' enforced inactivity had made all anxious to be up and doing.

The going was fairly good and there is every reason to believe that before night bear number three will be killed. All the party are in good health and spirits and a day of royal sport is eagerly anticipated.

The camp will probably be moved tomorrow, but the exact location has not yet been determined. Yesterday three men were out in the surrounding territory looking for a good location for it, and the chances are that it will be moved towards Redstone. The president has not yet decided in just what direction he wants to go, but the camp's location will depend almost entirely on game conditions. No one will know more than twelve hours in advance what the next move will be. If the camp is moved tomorrow the president will not be able to attend the cowboy dance which is to be given tomorrow night on Nickles' ranch.

It is planned to change the camp every two or three days, moving in a roundabout way in a radius of 100 miles. It is expected that next week the camp will be in a direct line with Glenwood Springs when messages will be sent direct instead of via Newcastle.

Philip B. Stewart will leave the camp tomorrow night and return to Colorado Springs where business of importance awaits him. He has planned to rejoin the party later and spend a couple of weeks more with the president.

DELACASSE MAY RESIGN PLACE

A DISAGREEMENT WITH HIS FELLOW CABINET MEMBERS IN REGARD TO MOROCCO.

PARIS, April 21.—1:35 p. m.—A rumor is in circulation in the chamber of deputies that Foreign Minister Delcasse intends to resign.

1:40 p. m.—The council of ministers held a lengthy session under the presidency of President Loubet. M. Delcasse was not present.

M. Delcasse went to the chamber of deputies at 4 p. m., anticipating a debate on the question of France's neutrality, and his appearance was interpreted as showing his intention to remain in the cabinet.

At the close of the session of the council of ministers, several members of the cabinet visited M. Delcasse to discuss the situation. Efforts are underway to induce him to give up his intention to retire, which is now admitted, despite the denials of his friends. The disagreement is over the Moroccan question.

STRIKE ENDED

PREMIER OF ITALY PROMISES TO CONSIDER A PLAN FOR ARBITRATION IN CASE OF TROUBLE.

ROME, April 21.—The railroad strike may be considered to have ended. A committee of socialist deputies has obtained from Premier Portia a promise to study a scheme for arbitration to be adopted in the case of differences between railroad men and the government.

In future the latter will consult the representatives of the railroad corporations with the object of ascertaining their requirements and propositions. It was also agreed that if the strike ceases promptly there will be no dismissals, transfers or other punishments of strikers.

After this understanding with the government telegrams were sent to the railroad men, throughout Italy, notifying them to be ready to resume their various employments.

TRADING STAMP CONCERN CLOSES ITS DOORS

PHILADELPHIA, April 21.—The Blue Bond Trading Stamp company with headquarters here has closed its doors. Hundreds of women with books filled ready for redemption called at the company's store today, only to find that it had been vacated.

DISCOURTESY TO COTTERFORD

SPRINGFIELD, Ill., April 21.—A peculiar spectacle was witnessed in the lower house of the Illinois legislature today. Reversing all precedents, members of the house unanimously remained seated while the oath of office was administered anew to Representative Frank Comerford, recently expelled because of failure on his part to substantiate charges which he made, alleging corruption on the part of fellow members of the legislature. Comerford, after his expulsion, was re-elected by his constituents.

MISS HAMMIL TAKES HER OWN LIFE IN MEMPHIS

MEMPHIS, Tenn., April 21.—Miss Rose Hammil, aged 26, of Chicago, committed suicide yesterday afternoon at the home of her brother, James E. Hammil, in South Memphis, by drinking a bottle of carbolic acid. Her sickness is said to have been the cause.

AN Important Meeting of Agents of the Company With New York Superintendent of Insurance

SYRACUSE, N. Y., April 21.—The general agents' committee of the Equitable Life Assurance society arrived today and arranged a conference with Superintendent of Insurance Francis Hendricks.

Joseph Bowes, of Baltimore, was spokesman of the committee. To Mr. Hendricks, the state superintendent of insurance, Mr. Bowes reviewed the action of the agents' convention in favor of mutualization and then made an address. He declared the agents were in position to know what policy holders wanted. The prevailing conditions had alarmed the policy holders.

The original plan of the founder, he declared, contemplated mutualization. For the first time the question of ownership of the vast surplus has arisen. The time has come for the change and when the society could no longer be regarded as the patrimony of one man.

He was informed on reliable authority, he said, that thirty-eight or forty directors do not own the requisite amount of stock required by the charter. There is no animosity among the agents against Mr. Hyde, he said, but a change must be made to deprive him of the immense power he wields. The compromise affected was a miserable one, which is disappointing, the realization of which will be delayed by litigation. The policy holders in the meantime suffer.

Mr. Hyde's elevation, he asserted, was due to sentiment necessary to his descent from the founder. For five years

The Humanist, Socialist, says:
"If the impending naval battle occurs in Indo-Chinese waters and the Russian squadron seeks refuge in our ports then France may be suddenly dragged into a conflict in spite of herself that would mean war and the movement which through feebleness or blindness permitted such a catastrophe to occur would bear one of the most terrible responsibilities history has ever known."
Dr. Montone said his request was that France observe neutrality by adding all the necessary measures for preventing Admiral Rojestvensky's squadron from remaining any longer in French territorial waters at Kamranh bay.

V. WITTE WITH GOVERNMENT WILL BE VERY SOON

ST. PETERSBURG, April 21.—The personnel of the Goremynkin commission appointed to discuss questions relating to peasant tenure of lands was announced today. It includes M. Sitchinsky, formerly chief adjutant of the Russian interior department, M. Von Plehve, son of the late interior minister, and other adherents of the former minister, giving it a decided reactionary tone.
The position of M. Witte, president of the committee of ministers, grows more and more untenable. Interior Minister Bouligand has proposed to the council of the empire that the question of higher education, confided to the committee of ministers, be transferred to a special commission and the *Siecle* again publishes a report that M. Witte will retire immediately, intimating that his successor will be Count Sokolsky, president of the economic department of the committee of ministers.
An interesting report is current that

Taft several communications relating to matters of departmental business which required the president's action. There was no intimation that these related to foreign affairs.

RUSSIAN AMBASSADOR FAILS TO RECOVER FROM OPERA- TION PERFORMED A FEW WEEKS AGO

PEKIN, April 21.—M. Paul Lessar, Russian minister to China, whose foot was recently amputated, died last night. M. Lessar, who was councillor of the Russian embassy in London, was appointed Russian minister to China July 12, 1901. The deceased minister distinguished himself as the negotiator with the Chinese of the proposed amendments to the Russo-Chinese Manchurian treaty.
Early in 1901 he began a series of meetings with Prince Ching and Wang Wen-Shao, who urged strong modifications of the old agreement, made with the late Li Hung Chang, in order to maintain the sovereignty of China over Manchuria. Russia, through M. Lessar, agreed to some of the Chinese demands, but the war with Japan ended the diplomatic negotiations on the subject.

SEISMIC DISTURBANCE RECORD- ED IN JOHNS HOPKINS IN 15 MINUTES AFTER IT HAPPENED.

BALTIMORE, April 21.—The recent disastrous earthquake in India sent a tremor half way around the world which reached Baltimore in fifteen minutes. This is the record shown by the weekly examination of the seismograph films at Johns Hopkins university.
Dr. H. F. Reid, of the United States geological survey, in charge of the seismograph at the university, put in a new film only a few hours before the shock occurred. On the strip of paper, about eleven yards long and two inches wide, is a series of irregular, wave-like lines rising like a miniature mountain range from a long and otherwise perfectly straight line.
From this record it appears that the shock first reached Baltimore at about 8:15 p. m., April 21. The most noticeable disturbance took place at 8:12 and lasted about twenty-five minutes.
The whole duration was about three hours. Figuring on the difference in time, the film shows that the first shock was recorded here approximately fifteen minutes after it shook India.

ITALY INTEGRANTS HAMBURG STEAMER PENNSYLVANIA BRINGS OVER 3,000 PASSENGERS TO NEW YORK TODAY.

NEW YORK, April 21.—When the Hamburg-American line steamer *Pennsylvania* arrived here today from Hamburg, she had on board the largest number of passengers ever brought to this port on a single steamer. The whole number, including cabin and steerage was 3,085. Of these 2,880 were in the steerage.

PHILADELPHIA WANTS BODY OF PAUL JONES

PHILADELPHIA, April 21.—The upper branch of city councils by an unanimous vote has adopted a resolution that the government be requested to designate the city of Philadelphia as the place for the burial of the remains of Admiral John Paul Jones.
The resolution makes the request on the fact that the American navy had its origin in Philadelphia, in revolutionary times, and that the commission of John Paul Jones as lieutenant in the American navy and his flag was received by him from the city of Philadelphia.

WILL KEEP A CHECK ON STATE'S EXPENSE

DENVER, April 21.—Auditor Bent today sent out requests to all state institutions to forward without delay duplicates of all contracts to be made in the future for supplies for different institutions.
This is a new departure and is done for the purpose of keeping a closer check upon expenditures of money than has heretofore been made. Auditor Bent discovered an old statute which required forwarding such duplicates and upon the advice of Attorney General Miller that the statute was still in force, the auditor issued his request as above stated. It has been the habit of state institutions to report on expenses at the end of each term, and it has often been the case that they were found to be largely in debt, which might have been avoided had they reported on each contract as made.

JEFFERSON'S CONDITION IS SATISFACTORY

WEST PALM BEACH, Fla., April 21.—Mr. Jefferson's condition today is somewhat improved as compared with yesterday. He had a good night, and is resting quietly.
Miss Hammil, aged 26, of Chicago, committed suicide yesterday afternoon at the home of her brother, James E. Hammil, in South Memphis, by drinking a bottle of carbolic acid. Her sickness is said to have been the cause.

President's Party Finds New Tracks and Enter into the Sport This Year

GLENWOOD SPRINGS, Colo., April 21.—After a day's enforced rest, the president's hunting party started out bright and early today. The snow which has fallen obliterated all old tracks and the party hoped to get close to a bear by nightfall. The guides having located several fresh tracks, the mail was unusually heavy and Secretary Loubet and the two stenographers put in most of the day in disposing of it.
Special to the Gazette.

NEWCASTLE, April 21.—A telephone message from a ranch in the neighborhood of the president's camp states that the weather is clearing, and that the president, Mr. P. B. Stewart, Dr. Lambert, and the hounds are now on the trail of another big bear.
Jack Frye, head cook, prepared an appetizing breakfast of flapjacks, bacon and coffee to which the party did full justice. Fifteen minutes later they were in the saddle for the three days' enforced inactivity had made all anxious to be up and doing.
The going was fairly good and there is every reason to believe that before night bear number three will be killed. All the party are in good health and spirits and a day of royal sport is eagerly anticipated.
The camp will probably be moved tomorrow, but the exact location has not yet been determined. The party is looking for a good location for it, and the chances are that it will be moved towards Redstone. The president has not yet decided in just what direction he wants to go, but the camp's location will depend almost entirely on game conditions. No one will know more than twelve hours in advance what the next move will be. If the camp is moved tomorrow the president will not be able to attend the cowboy dance which is to be given tomorrow night on Nickles' ranch.
It is planned to change the camp every two or three days, moving in a roundabout way in a radius of 100 miles. It is expected that next week the camp will be in a direct line with Glenwood Springs when messages will be sent direct instead of via Newcastle.
Philip B. Stewart will leave the camp tomorrow night and return to Colorado Springs where business of importance awaits him. He has planned to remain at the party later and spend a couple of weeks more with the president.

STRIKE ENDED

PREMIER OF ITALY PROMISES TO CONSIDER A PLAN FOR ARBITRATION IN CASE OF TROUBLE.

ROME, April 21.—The railroad strike may be considered to have ended. A committee of socialist deputies has obtained from Premier Fortis a promise to study a scheme for arbitration to be adopted in the case of differences between railroad men and the government.
In future the latter will consult the representatives of the railroad corporations with the object of ascertaining their requirements and propositions. It was also agreed that if the strike ceases promptly there will be no dismissals, transfers or other punishments of strikers.
After this understanding with the government telegrams were sent to the railroad men, throughout Italy, notifying them to be ready to resume their various employments.

SECRETARY HAY IN THE BEST OF SPIRITS

GENOA, Italy, April 21.—Secretary Hay left Genoa today for Bad Nauheim, by way of Milan. The secretary is in the best of spirits declaring that the air of Italy has been most efficacious and that he feels that he has quite recovered his health.

"VIRGINIA" CARROLL DEAD.

NEW ORLEANS, April 21.—James J. Carroll, better known as "Virginia" Carroll, for many years one of the most noted figures of the American turf, is dead here of cancer, aged 47 years.

STEPS TAKEN FOR A MUNICIPAL LIGHT PLANT

CHICAGO, April 21.—Immediate steps are to be taken by Mayor Dunne to urge upon the state legislature the passage of a bill which will enable the city of Chicago to engage in the manufacture of gas and compete with the lighting companies.

MISS HAMMIL TAKES HER OWN LIFE IN MEMPHIS

MEMPHIS, Tenn., April 21.—Miss Rose Hammil, aged 26, of Chicago, committed suicide yesterday afternoon at the home of her brother, James E. Hammil, in South Memphis, by drinking a bottle of carbolic acid. Her sickness is said to have been the cause.

SYRACUSE, N. Y., April 21.—The general agents' committee of the Equitable Life Assurance society arrived today and arranged a conference with Superintendent of Insurance Francis Hendricks.

Joseph Bowers, of Baltimore, was spokesman of the committee. To Mr. Hendricks, the state superintendent of insurance, Mr. Bowers reviewed the action of the agents' convention in favor of mutualization and then made an address. He declared the agents were in position to know what policy holders wanted. The prevailing conditions had alarmed the policy holders.

The original plan of the founder, he declared, contemplated mutualization. For the first time the question of ownership of the vast surplus has arisen. The time has come for the change and when the society could no longer be regarded as the patrimony of one man. He was informed on reliable authority, he said, that thirty-eight or forty directors do not own the requisite amount of stock required by the charter. There is no animosity among the agents against Mr. Hyde, he said, but a change must be made to deprive him of the immense power he wields. The compromise affected was a miserable one, which is disappointing, the realization of which will be delayed by litigation. The policy holders in the mean time suffer.

Mr. Hyde's elevation, he asserted, was due to sentiment necessary to his descent from the founder. For five years

DELASSE MAY RESIGN PLACE

A DISAGREEMENT WITH HIS FELLOW CABINET MEM- BERS IN REGARD TO MOROCCO.

PARIS, April 21.—1:35 p. m.—A rumor is in circulation in the chamber of deputies that Foreign Minister Delcasse intends to resign.
4:40 p. m.—The council of ministers held a lengthy session under the presidency of President Loubet. M. Delcasse was not present.
M. Delcasse went to the chamber of deputies at 4 p. m., anticipating a debate on the question of France's neutrality, and his appearance was interpreted as showing his intention to remain in the cabinet.
At the close of the session of the council of ministers, several members of the cabinet visited M. Delcasse to discuss the situation. Efforts are under way to induce him to give up his intention to retire, which is now admitted, despite the denials of his friends. The disagreement is over the Moroccan question.

An Important Meeting of Agents of the Company in New York Superintendent of Insurance ---Force Must be Sustained.

he had been watched, helped and forgiven until sentiment was exhausted. E. A. Woods, of Pittsburgh, president of the agents, next addressed Mr. Hendricks. He told of the immense tangible interests of the agents and declared that under the present system of control the Equitable stock could be transferred to a party even more dangerous than Mr. Hyde. The agents were opposed to any change which did not conserve the interests of policy holders and had suggested a committee for policy holders as trustees appointed by President Roosevelt, or to designate ex-President Cleveland, or a committee of college presidents.
He believed adverse legislation in other states could be prevented by prompt action in New York.
Archibald Haynes, of Portland, Me., followed with similar remarks.
Superintendent Hendricks in reply said that he had expressed himself clearly in favor of mutualization, and that he was sure relief could be obtained by legislation.
He said that if Judge Maddox decides in the Lord suit that he has no power to put in force the amended charter, an appeal will be made to the court of appeals, or to the United States courts. He asserted that he did not believe the Hyde interests instituted the Lord suit. "Mr. Lord is opposed to the mutualization plan," said Mr. Hendricks, "only because he believes his stock will be impaired by the amended charter." Mr. Hendricks expressed himself in favor of the proposition in the hands of the attorney general concerning policy holders' representation upon the directorate, making it only a question of time when policy holders will be in control. In closing, Mr. Hendricks said:
"And I will tell you, that before I get through with this company I will find out who are dummies. I will find out absolutely. You can rely on me. When we get done we will tell you the true condition of the society. I can't tell how long it will be, whether days, weeks or months, but it will be thoroughly done. In the meantime the Frick committee has asked questions which will take thirty or forty days to answer."

HARRY E. LEE DIED SUDDENLY

WELL-KNOWN YOUNG LAWYER DIES AT GLENWOOD OF AN ACUTE KIDNEY TROUBLE.

SPECIAL TO THE GAZETTE.
DENVER, April 21.—Legal and business circles received a sudden shock this morning when word was received from Glenwood Springs that Harry Hughes Lee, of the well-known firm of Thomas, Bryant & Lee, had died there this morning at 7 o'clock from acute kidney trouble.
Mr. Lee was one of the best known lawyers in Denver, and left here in company with his wife and a few friends for a short rest and recreation at Glenwood Springs, Monday night. Mr. Lee did not complain of any illness. He said that he felt he needed a rest. Yesterday morning he was seized with convulsions. Dr. McAllister, the house physician, applied heroic measures, but without avail. Shortly after noon he became unconscious, and died at 7 o'clock this morning. The cause of death was acute kidney trouble. The remains will be brought to Denver tonight.

Harry Hughes Lee was born at Independence, Mo., in 1860. He was the son of W. D. Lee, a native of Ohio, who came from that state to Colorado and highly respected family. J. C. Lee, an uncle, is a resident of Denver.
In 1875 the family removed to Denver, where the son was born 10 years of age. In 1880 he married Miss Marian Goddard, formerly of Boston.
Mr. Lee was one of the attorneys for the plaintiffs in the famous suit of the Venture company, of London, against the Stratton estate.
By a strange coincidence, last night came the news of the death of William Tripp, who was a former member of the firm of Thomas, Bryant & Lee, at Goldfield, Nev. Mr. Tripp died at 11 o'clock last night and Mr. Lee at 7 this morning. It was an odd sort of fate that these two associates should have died practically at the same time.

CAPTAIN OF LENA WAS ALLOWED TO CELEBRATE

WASHINGTON, April 21.—Correspondence made public at the state department today show that when Count Cassini, the Russian ambassador at Washington some time ago, transmitted the request of Captain Berfinsky, of the Lena, that he be allowed to celebrate the name day of his sovereign by hoisting the Russian flag, dressing his ship and firing the imperial salute, Secretary Hay was unable to grant permission to fire the salute as the Lena was disarmed. The secretary readily approved the remainder of the program.

SENATOR PLATT'S CONDITION IS WORSE

WASHINGTON, Conn., April 21.—The condition of Senator O. H. Platt continues to cause the gravest anxiety. The bulletin issued today stated that there had been some failure in the senator's condition in the last twenty-four hours. The attending physician says there is now no doubt that an abscess has formed on one of the lungs.
At 11:15 Dr. Ford announced that Senator Platt's condition had grown rapidly worse in the last two hours. "At the rate he is sinking now," said the physician, "the end may come in a few hours."

LIEUT. KRUMM DEAD.

COLUMBUS, O., April 21.—Mr. and Mrs. Alexander Krumm are in receipt of word from Lieutenant Herbert C. Krumm, U. S. A., cavalry sergeant, is dead there in the government hospital, while under the influence of ether for an operation. Lieutenant Krumm served in the Philippines.

ornforth and Parks in
Court Over Office of
Lieut. Governor.

SENATOR April 21—Yesterday the
supreme court decided to take
jurisdiction in the quo warranto
proceedings instituted by Ator-
John M. Waldron of counsel for
d W. Parks, who seeks the office
lieutenant governor, against Arth-
ornforth. The court will give a speedy
ing to determine who is legally
titled to the office. It will be an in-
stant legal controversy
ver since Governor McDonald on
ch 17, stepped from the office of
tenant governor to the higher place
iator. Cornforth, of Colorado Springs,
held that to him belonged the office.
ated. He has had no opportunity
serving as governor in place of the
sent occupant but in all other re-
spects he has lived up to the office,
wing \$100 from the lieutenant gov-
or's contingent fund of \$500 on April
last.

he facts are as follows: At the be-
gining of the legislative session Sen-
r Cornforth was elected president
tempore of the senate. As such,
until his term expired on April 17,
the close of the session, he would be
titled to take the position of lieuten-
ant governor in case of the advance-
ment removal death or disability of
regularly elected lieutenant gov-
or and as such provided over the
ate's deliberations from the time the
tenant governor was sworn in as
error.

but at the close of the legislative ses-
sion Senator Parks of Denver, was
elected president tempore of the
ate, and as such he holds himself to
the lieutenant governor from that
ir.

n support of the stand taken by Sen-
r Parks, his counsel in the applica-
tion to the supreme court for a writ of
a warrant, points out that Senator
ornforth's term as state senator will
sire on the first Wednesday of De-
cember, 1906, but that the office of lieuten-
ant governor does not expire until
January, 1907.

or Senator Cornforth, it is contend-
ed that as he was the president pro
at the time the vacancy took
ce, he fell into it and all the argu-
ments and briefs cannot drag the office
from him. He is willing to forego the
solvency problem of the senate but
as to the presidency of the senate
virtue of his succession to the lieuten-
ant governorship. Therefore, Sen-
r Cornforth is state senator, presi-
ent of the senate and lieutenant gov-
or, according to the contention of
advisors. When his term as senator
expires, he will be senator and lieuten-
ant governor. He is elected in November 1906
and will be in the office on the first
Wednesday in December of that year.
Senator Cornforth will continue to
hold the office of lieutenant gov-
ernor.

RINGS A ...
AGAINST ...

BOSTON April 21—H B Runkle of
New York today brought a bill in
utty in the superior court against A.
Burrage, C. D. Burrage and Thomas
Lawson all of this city in which
he seeks an accounting for \$386,123
which he alleges was contributed by
various persons toward a fund for
a native born to acquire Arizona
and New Mexico properties. Runkle
states that he subscribed through U.
Dickey, who withheld information to
the description and location of the
properties but who declared that the enter-
prise was to be managed by A. C. Bur-
rage the other defendants also being
named. The properties organized by
e defendants or by those who were
sociated with them were the Angus
copper company, the Oxide Copper
company, the Table Mountain Copper
company and the Arimex Consolidated
copper company.

C. F. ...
FLOATING TARGET

NEW YORK April 21—A floating tar-
get, the first of its kind to be constructed,
will be launched today at the Brooklyn
yard. It is designed for use not
only in testing the accuracy of the guns
of the forts along the lower bay,
but in determining the probable efficiency
of the heavy ordnance of the land bat-
tleships against battleships.
The target is in the shape of a box
float long and 12 feet on each side. It
will be ballasted so as to stand upright in
e water, leaving exposed 12 feet of its
length, the free board of an ordinary bat-
tleship. The draught of the target, 20
feet, is about that of a battleship, so it
will be towed to any point where such a
test might be
steel plates an inch thick are the ma-
terial of the target's construction. There
are water tight compartments, so the ef-
fect of perforations by shot and shell be-
low the water line may be noted. With
a ballist the target weighs 100 tons.
Javal constructors and ordinance experts
have calculated the power of resistance
the target above and below water to
be striking it and expect valuable de-
ductions can be made as a result of its
use.

THE TESTING OF GUNS A TARGET OF DIF-
FERENT MATERIAL WILL BE SUPERIMPOSED ON
A FLOATING STEEL HULL.

WHITE CRISTO ...
ADDING DEPTH

CRIPPLE CREEK, April 21—That part
Beacon hill designated on the maps
the Monte Cristo claim is being stam-
pled by a shaft 200 feet has been
started. A depth of 200 feet is to be
tributed. Several veins, some of them be-
lieved to be rich in silver, are being
explored. The Monte Cristo from the lower end of
Beacon. Any of them that are held
enough to enter will be subjected to long
and careful investigation.

PROSPERITY FOR
BUILDING TRADES

NEW YORK April 21—A committee
of six consisting of three employers
and three labor representatives, ap-
pointed at a convention of the joint ar-
bitration board of the Building Trades
association has met to consider amend-
ments for the arbitration agreement to
be in effect during the labor year be-
ginning May 1.

All the amendments were favorably
received. It is anticipated that they
will be accepted by the convention, and
that the new agreement will insure one
of the most prosperous building seasons
this city has seen in many years. The
labor delegates will sign on behalf of
100,000 skilled workers while the em-
ployers will sign for 1,000 employers in
the building trades.
Builders, architects and prospective
owners of new office buildings, flats and
apartment houses have been waiting
for this convention before making con-
tracts for this season. Two years ago
many builders were bankrupted by the
strikes instituted by the labor. Sen-
ator Parks. This brought about the ar-
bitration agreement which is now cap-
itulation. The amendments are being made
to satisfy representatives of the skilled
trades not content with the old agree-
ment.

Last year's building season was also
marred by several strikes in violation
of the arbitration agreement but most
of the trades involved have come back
to the employers and will sign in ar-
bitration agreement.

HIGH PRICES FOR
TWO SEVEN HORSES

NEW YORK April 21—Some high
prices have been realized at a sale of
show horses brought here by M. H.
Tichenor & Co. of Chicago. The Ho-
bait Moore made two of the highest
bids recorded. He paid \$5,000 for Bond
and Tildard a cross matched pair of
dapple gray bred in Kentucky.
Schinas Brothers of Mid Judge Moore
on Storm and Tempest a matched pair
of bay geldings which they secured for
\$5,000.

The highest priced single horse sold
was Max Morning which was pur-
chased by Judge Moore for \$3,650.
A broken gelding saddle horse, Min-
strel brought \$1,600.

TUBERCULOSIS ON TRAINS
SUBJECT FOR DISCUSSION

The Danger of Infected Cars is to be
Considered at the Coming Meet-
ing in Washington—Numer-
ous Tests Will Be Made.

WASHINGTON April 19—A widespread
interest is being shown in the coming an-
nual meeting of the National Association
for the Study and Prevention of Tubercu-
losis, which will take place in Wash-
ington on May 18 and 19, and in connection
with which Dr. Wyman has called a
meeting of the executive officers of the
state boards of health for May 1. United
States Marine Hospital Service has re-
ceived numerous letters from health offi-
cers on this subject, especially on this
branch of it which relates to the spread
of the disease by travelers on the various
railroads.

Dr. S. J. Crumblin, secretary of the
Kansas state board of health, thus
writes:
The geographical position of this state
is such, lying immediately east of the
health resorts of the Rocky mountains,
that it could probably be asserted that
there is scarcely a transcontinental train
going west the year round that does not
carry its one or more passengers afflicted
with tuberculosis seeking the life-giving
and healthful resorts of Colorado, New
Mexico and Arizona.

With little or no convenience for the
proper disposal of the expectation of
these people, it must be self-evident that
these cars are in a chronic state of in-
fection. Time and time again I have per-
sonally observed a consumptive in a day
coach. These people being of low vital-
ity and afraid of draughts and cool air
while traveling require that the coaches
be closed, which adds to the danger of
infection to their fellow-passengers.
It is considered by the scientists who
expect to be in attendance as especially
fortunate that while the meeting is in
progress they will have unusual facilities
for studying the latest improvements in
the ventilation and sanitation of railway
passenger cars. For simultaneous with
the meetings of the health specialists will
be the meeting of the International Rail-
way congress with its great exhibition of
cars and railway appliances for which
congress has granted the use of the
"White Lot".
Numerous tests will be made under the
direction of health officers from different
parts of the country to demonstrate how
quickly and how completely the air in
passenger coaches can be changed. It
being the already expressed opinion of
scientific men that public health demands
an entire change of air at least once in
every six minutes.

MINNESOTA IS NAMED
FOR YUKON GOVERNOR

VICTORIA, B. C., April 21—Private
advises from Ottawa state that W. W.
McInnes, member of the British
Columbia legislature for Alberni, has
been appointed governor of the Yukon
Territory, with residence at Dawson at
a salary of \$12,000 per year.
He replaces Gov. Condon, who re-
signed to contest the Yukon seat in the
federal parliament and was defeated.
McInnes leaves for Ottawa in a few
days.

DISPUTED ARE

United States "Was Ex-
asperated and Sen-
arships.

WASHINGTON April 21—The
difficulties encountered by the
American minister at Constantinople
in his efforts to gain an audience
with the sultan last year to secure
the removal of American claims
forth in the following official
phrase made public at the secre-
tariat today in a cablegram re-
ceived at the time from Minister
L.

Mr. Leischman reports in the ab-
sence of any further communication
from the palace about the audience
he attended. Schimank this morning
and that the grand master of the
ceremonies informed him that on account
of important visits in his harem his
presence could not receive him and so
view of the fact that the audience
demanded in the name of the sultan
and that he has been twice put off
promises to Mr. Leischman to be with
the dignitary of the government of the
United States to have him again go
to the palace to seek an audience.
less positive assurance be given
advance that he will be received by
the sultan. Requests further in this
direction.

Ex-pressed by the authorities of
the State Secretary has informed Mr.
Leischman that the American min-
ister will arrive in Constantinople in a few days
and intend to stay in the city for a
few days to obtain a satisfactory
view of the Turkish government and
its attitude and if that government
should continue to refuse or post-
pone the moderate and reasonable re-
quest of this government to take a
definite leave and depart for the
key in one of the United States pas-
senger leaving the legation in Paris
of the secretary of legation.

W.C. ... BOAK TO HEAD ... GOULD TO HAVE ... THROUGH LINE ...

ornforth and Parks in Court Over Office of Lieut. Governor.

PHENIX, April 21—Yesterday the supreme court decided to take jurisdiction in the quo warranto proceedings instituted by Attorney John M. Waldron of counsel for W. Parks, who seeks the office of lieutenant governor against Arthur Cornforth. The court will give a speedy ruling to determine who is legally entitled to the office. It will be an interesting legal controversy.

Over since Governor McDonald, on March 17, stepped from the office of lieutenant governor to the higher place of governor, Cornforth of Colorado Springs held that to him belonged the office. He has had no opportunity of serving as governor in place of the absent incumbent but in all other respects he has lived up to the office, having \$100 from the lieutenant governor's contingent fund of \$500 on April 1st.

The facts are as follows: At the beginning of the legislative session, Senator Cornforth was elected president of the senate. As such, until his term expired on April 2, the close of the session he would be entitled to take the position of lieutenant governor, in case of the absence, removal, death or disability of a regularly elected lieutenant governor, and as such presided over the late deliberations from the time the lieutenant governor was sworn in as governor.

But at the close of the legislative session, Senator Parks of Denver was elected president pro tempore of the senate, and as such he holds himself to the lieutenant governor from that time.

In support of the stand taken by Senator Parks, his counsel in the application to the supreme court for a writ of quo warranto, points out that Senator Cornforth's term as state senator will expire on the first Wednesday of December, 1906, but that the office of lieutenant governor does not expire until January, 1907.

For Senator Cornforth, it is contended that as he was the president pro tempore at the time the vacancy took place he fell into it and all the arguments and briefs cannot drag the office from him. He is willing to forego the evidence pro tem of the senate but holds to the presidency of the senate as the basis of his succession to the lieutenant governorship.

Therefore, Senator Cornforth is state senator, president of the senate and lieutenant governor, according to the contention of his advisers. When his term as senator expires he ceases to be senator and the person elected in November 1906 will fill his place in the office on the first Wednesday of December of that year. Senator Cornforth will continue to fill the office of lieutenant governor.

SENATOR CORNFORTH'S TERM AS STATE SENATOR WILL EXPIRE ON THE FIRST WEDNESDAY OF DECEMBER, 1906, BUT THAT THE OFFICE OF LIEUTENANT GOVERNOR DOES NOT EXPIRE UNTIL JANUARY, 1907.

For Senator Cornforth, it is contended that as he was the president pro tempore at the time the vacancy took place he fell into it and all the arguments and briefs cannot drag the office from him. He is willing to forego the evidence pro tem of the senate but holds to the presidency of the senate as the basis of his succession to the lieutenant governorship.

Therefore, Senator Cornforth is state senator, president of the senate and lieutenant governor, according to the contention of his advisers. When his term as senator expires he ceases to be senator and the person elected in November 1906 will fill his place in the office on the first Wednesday of December of that year. Senator Cornforth will continue to fill the office of lieutenant governor.

SENATOR CORNFORTH'S TERM AS STATE SENATOR WILL EXPIRE ON THE FIRST WEDNESDAY OF DECEMBER, 1906, BUT THAT THE OFFICE OF LIEUTENANT GOVERNOR DOES NOT EXPIRE UNTIL JANUARY, 1907.

For Senator Cornforth, it is contended that as he was the president pro tempore at the time the vacancy took place he fell into it and all the arguments and briefs cannot drag the office from him. He is willing to forego the evidence pro tem of the senate but holds to the presidency of the senate as the basis of his succession to the lieutenant governorship.

Therefore, Senator Cornforth is state senator, president of the senate and lieutenant governor, according to the contention of his advisers. When his term as senator expires he ceases to be senator and the person elected in November 1906 will fill his place in the office on the first Wednesday of December of that year. Senator Cornforth will continue to fill the office of lieutenant governor.

SENATOR CORNFORTH'S TERM AS STATE SENATOR WILL EXPIRE ON THE FIRST WEDNESDAY OF DECEMBER, 1906, BUT THAT THE OFFICE OF LIEUTENANT GOVERNOR DOES NOT EXPIRE UNTIL JANUARY, 1907.

For Senator Cornforth, it is contended that as he was the president pro tempore at the time the vacancy took place he fell into it and all the arguments and briefs cannot drag the office from him. He is willing to forego the evidence pro tem of the senate but holds to the presidency of the senate as the basis of his succession to the lieutenant governorship.

PROSPERITY FOR BUILDING TRADES

NEW YORK, April 21—A committee of six, consisting of three employers and three labor representatives, appointed at a convention of the joint arbitration board of the Building Trades Association has met to consider amendments for the arbitration agreement to be in effect during the labor year beginning May 1.

All the amendments were favorably received. It is anticipated that they will be accepted by the convention and that the new agreement will insure one of the most prosperous building seasons this city has seen in many years. The labor delegates will sign on behalf of 100,000 skilled workers while the employers will sign for 1,000 employers in the building trades.

Builders, architects and prospective owners of new office buildings, flats and apartment houses have been waiting for this convention before making contracts for this season. For years ago many builders were bankrupted by the strikes instituted by the labor unions. This brought about the arbitration agreement which is now expiring.

The amendments are being made to satisfy representatives of the skilled trades not content with the old agreement.

Last year's building season was also marred by several strikes in violation of the arbitration agreement but most of the trades involved have come back to the employers and will sign in arbitration agreement.

THE HIGHEST PRICED SINGLE HORSE SOLD WAS MAX MORNING WHICH WAS PURCHASED BY JUDGE MOORE FOR \$3,650.

A brown gelding saddle horse, Minnesota, brought \$1,000.

TUBERCULOSIS ON TRAINS SUBJECT FOR DISCUSSION

The Danger of Infected Cars is to be Considered at the Coming Meeting in Washington—Numerous Tests Will Be Made.

WASHINGTON, April 19—A widespread interest is being shown in the coming annual meeting of the National Association for the Study and Prevention of Tuberculosis, which will take place in Washington on May 15 and 16, and in connection with which Dr. Wyman has called a meeting of the executive officers of the state boards of health for May 15.

Surgeon General Wyman of the United States Marine Hospital Service has received numerous letters from health officers on this subject, especially on the spread of the disease by travelers on the various railroads.

Dr. S. J. Crumrine, secretary of the Kansas state board of health, thus writes:

The geographical position of this state is such, lying immediately east of the health resorts of the Rocky mountains that it could probably be asserted that there is scarcely a transcontinental train going west the year round that does not carry its one or more passengers afflicted with tuberculosis seeking the life-giving and healthful resorts of Colorado, New Mexico and Arizona.

With little or no convenience for the proper disposal of the expectoration of these people, it must be self-evident that these cars are in a chronic state of infection. Time and time again I have personally observed a consumptive in a day coach. These people being of low vitality and afraid of draughts and cool air while traveling require that the coaches be closed, which adds to the danger of infection to their fellow-passengers.

It is considered by the scientists who expect to be in attendance as especially fortunate that while the meeting is in progress they will have unusual facilities for studying the latest improvements in the ventilation and sanitation of railway passenger cars.

For simultaneous with the meetings of the health specialists will be the meeting of the International Railway congress with its great exhibition of cars and railway appliances for which congress has granted the use of the "White Lot."

Numerous tests will be made under the direction of health officers from different parts of the country to demonstrate how quickly and how completely the air in passenger coaches can be changed if being the already expressed opinion of scientific men that public health demands an entire change of air at least once in every six minutes.

MINNESOTA IS NAMED FOR YUKON GOVERNOR

VICTORIA, B. C., April 21—Private advices from Ottawa state that W. W. B. McInnes, member of the British Columbia legislature for Alberni, has been appointed governor of the Yukon Territory, with residence at Dawson at a salary of \$12,000 per year.

He replaces Gov. Condon, who resigned to contest the Yukon seat in the federal parliament and was defeated.

McInnes leaves for Ottawa in a few days.

DISPUTED ARE LEAVING DAWSON

Special to the Gazette. CRIPPLE CREEK, April 21—That party of men who are leaving the locality of the Jerry Johnson mine and who were the subject of a legal controversy between the Jerry Johnson and the United Gold Mines company is being removed by Oscar Logsdon, lessee through the Denver workings, to which it is most convenient. The party is of good quality, the lessee and the owner are both to profit equally from its removal. The party is to be removed to the United Gold Mines company, this is a mining in the name of a different party, the Jerry Johnson taking this in the name of the order of the party is being removed.

Special to the Gazette. CRIPPLE CREEK, April 21—A carload of ore from the Ramona west side is expected to yield upward of \$200 in gold to the ton. Specimens filed a car that was loaded from block No. 20 of the Ramona estate yesterday by Newton & Peterson. Some specimens from this block brought \$100 a ton. The Howell dump on the Mary Mine is a surprising quantity. The car, it is the W. F. H. and one of the quantities of the Indian Consolidated. They were as average quality. The American Eagles and block No. 5 of the same estate could be used on the car. A car of ore left the district yesterday.

Special to the Gazette. CRIPPLE CREEK, April 21—An ore body of good width and low grade has been encountered by the south end of the Little Elk mine, of the El Paso Consolidated company, in a crosscut driven from the bottom of the Howards shaft at a depth of 150 feet. Values range from \$10 to \$15 in gold to the ton. The grade is too low to mine at a profit under the existing system so the operators will push along on the course of the body with the expectation of encountering better values.

THE DOSTON MAN'S QUESTION

Governor Folk of Missouri told these New Yorkers some interesting facts about his state the other night. He said among other things that one Missouri county produced more corn than all New England combined.

How about beans?—Cleveland Plain Dealer.

IN THE FAMILY.

Ah, said Mrs. Oldcastle. So you're reading Mrs. Binkley's new story? Don't you think her style is almost too idiomatic?

"I hadn't noticed," replied her hostess, "but I wouldn't be surprised if it was. You know it runs in the family. She has a niece that was only half-witted."—Chicago Record Herald.

THEY ALL THINK SO.

The Son—But father, you are just a bit of an old fogey.

The Father—I guess it runs in the family. My father was the same way when I was your age.

UNDERGROUND RAILWAY TO HAVE EL PASO GOLD

Special to the Gazette. CRIPPLE CREEK, April 21—Four carloads of ore, each having a value of about \$1,000 in gold to the car or \$70 per ton, are leaving the El Paso Consolidated property on Beacon hill each day. This means that the daily worth of the ore leaving the mine is in the neighborhood of \$7,000 and for a month of 30 days \$210,000. That a considerable part of this becomes net profit may be gathered from the fact that the grade is almost three times that of the average for the district and that operation of the mine is economical.

In the course of a few weeks there will be further contribution to the output, this being promised in mechanical facilities to be installed between the main shaft and the Morning Star shaft on the north end. Ore from that remarkable body is being removed by man power or in a mine car trammed in the customary way. There is so much material at hand in the north end that ten carloads may be dragged out where but a fraction of this number is leaving today and to make such removal possible a compressed air locomotive is to be put in commission. Track has been laid and the cars are in service. An electric motor to operate the compressor will be installed within a week or two and the locomotive is on the way. In the course of three or four weeks the El Paso Consolidated underground railway will be a fact and a profit-earner. It will be operated on the third level which at the northern extremity of the property has a depth of 615 feet.

Work on the shaft, begun a few weeks ago is progressing at record speed considering the character of the rock penetrated and other conditions. Three shifts are at work and are adding depth to the workings at the rate of five or six feet a day, the bottom being about 80 feet below the 800-foot level near which sinking was started. One thousand feet is understood to be the present objective, but it will ultimately be 500 feet more. At 900 and at 1,000 feet depths laterals will be started to ore shoots, and as the development of each level above has meant a fortune of liberal proportions two more fortunes may be counted on in the two additional levels if the ore shoots prove to be continuous and there is strong suggestion that they will.

DOCKS DESTROYED.

BREMEN, April 21—All the docks, warehouses and buildings of the German North Steamship company here were destroyed by fire today. The vessels of the company were towed out of danger and sustained no damage. There was no loss of life.

CRIPPLE CREEK, April 21—That party of men who are leaving the locality of the Jerry Johnson mine and who were the subject of a legal controversy between the Jerry Johnson and the United Gold Mines company is being removed by Oscar Logsdon, lessee through the Denver workings, to which it is most convenient. COLORADO RUBBER.

NE of the most important problems which industrial science is now trying to solve is the manufacture or discovery of a substitute for rubber. The demand for this commodity has increased many-fold of late years, and the supply, which comes almost solely from South America, is wholly insufficient.

Rubber is now used in a thousand ways undreamed of when the process of making it commercially was discovered by Goodyear. It enters into the manufacture of so many articles which are used every day by all civilized nations that it has come to be indispensable. And yet the supply has hardly increased in fifty years. The rubber plant can not be cultivated in fields like other plants and trees that yield commercial products. It attains perfection only in its wild state, and the best quality is found only in the wildest and most inaccessible parts of South America and Africa; localities so unhealthy that while men can not live there. Consequently the world is dependent for its rubber supply on the natives, and their ignorance and carelessness often results in the unnecessary killing of the plants.

The growth of the automobile fad has almost doubled the demand for rubber, and as only the best grade of Para can be used for making tires it had become necessary to use the cheaper grades for overshoes and other articles where a high degree of elasticity is not needed. Old rubber is melted up and used over again and again, until its peculiar properties are lost. With such conditions prevailing in the trade it is readily to be seen that if a substitute was discovered the whole business would be revolutionized and the price of rubber articles would be materially reduced.

This is why so much importance attaches to the experiments with the so-called rubber plant, a kind of weed that grows wild over the lower mountain slopes in Colorado, Arizona, New Mexico and the Mexican Republic. A little more than a year ago it was found that the roots and branches of this weed yield a product closely resembling real South American rubber and possessing the properties of elasticity and resiliency to a marked degree. Companies have been formed to exploit the discovery, but it has not yet been made commercially successful.

Now, through the efforts of Congressman Brooks, an expert from the Bureau of Plant Industry of the Agriculture Department has been sent to this state to investigate the plant. Mr. Brooks will attempt to secure in appropriation from the next Congress to carry on the work more thoroughly, and on the result of this investigation depends the future of the industry. It may mean a great deal for Colorado, for if the product is found equal even to the inferior grades of South American rubber the demand will be great enough to take all that can be supplied.

ROOSEVELT AND REFORM.

"AS the President the courage to be a reformer?" asks Mr. Bryan. And if he had not shown in a lengthy magazine article that he was asking it in dead seriousness nobody would have believed that he meant it. Has a duck the courage to swim? Has Mr. Bryan the courage to talk when he finds himself facing an audience? The President takes to the business of reforming as naturally as a duck does to water, or as Mr. Bryan does to talking.

The Nebraska statesman must have failed to read the history of his own times, and especially that of the last three and a half years. Evidently, too, he has denied himself the pleasure and profit of perusing the life and deeds of Theodore Roosevelt, as chronicled by Jacob Riis, Francis E. Leupp and several other biographers. If he had done these things he would long since have learned that being a reformer is Mr. Roosevelt's specialty, and that he achieved distinction in that field long before Mr. Bryan was heard of outside the sacred precincts of Lincoln, Nebraska.

Mr. Roosevelt began his career as a reformer when as a youth of twenty-three he fought for civil service in the New York legislature. It was a daring thing for a youngster to do, but he did it and won a fair degree of success. In 1886, when only twenty-eight years old, he was his party's candidate for mayor of New York City, and though he was beaten he made a good fight, and again it was a fight for reform.

For six years, beginning in 1889 he was on the Civil Service Commission, and his work as a reformer there is still a potent power for good. When he took up the work there were 14,000 places in the civil service; when he left there were 40,000. Then he became President of the New York Police Board, and cleaned up that corruption-ridden organization more thoroughly than had ever before been known. His record there stamps him as more of a reformer than Mr. Bryan can ever hope to be, so far as practical results are concerned.

It was Roosevelt who, as Assistant Secretary of the Navy, cut the red tape which swathed the Department and did the real work of preparing the Navy for the war with Spain. It was Roosevelt who, as Governor of New York, forced through the legislature a franchise tax law which compelled the corporations to pay for their privileges. He secured the passage of an effective civil service law, saw to it that the factory laws were enforced, and in a hundred other ways showed himself to be a real reformer. His reform record while President is too well known to need comment.

Mr. Bryan need not sleep over Roosevelt's courage to tackle any kind of reform. The President will be carrying on effective reforms years from now when Bryan is still wasting breath in criticising him and the other men who do things.

James H. Hyde says the demand for his resignation is "impertinent, extraordinary, insulting and most preposterous." He should have added that it is also horribly annoying and too mean for any use.

THE RUSSIAN SHIPS AT PORT ARTHUR.

GUSSING at what the Japanese may or may not do is an interesting and harmless diversion. They have shown such amazing ability to get great things done effectively and in a hurry that it is almost safe to attribute to them the power to accomplish what with other peoples would be impossibilities. For instance, a short time ago it was reported that they were seriously considering damming the entrance to Port Arthur harbor and then pumping out all of the water inside to enable them to repair the sunken Russian warships.

This sounds like a "pipe-dream," but there are engineers who consider it practicable. The channel is very narrow and not very deep, so it could probably be dammed with no more difficulty than a small river. With this once accomplished the draining of the inner harbor would simply be a matter of big pumps and several weeks' time. Several of the Russian ships were so badly damaged that they could not be raised, but it is claimed that sufficient repairs could be made to them in the dry harbor basin to make them water-tight. Then when the water should again be turned in they could be floated, towed to Japan, dry-docked and rebuilt or repaired as the conditions might demand.

However the world has not yet heard that this feat has even been attempted, and it is certain that if it had been, even Japanese secretiveness could not prevent some intimation of it leaking out. But it is not beyond the realm of possibility, or even probability, that one or more of the least damaged ships in Port Arthur harbor have been repaired and are now with Togo's fleet.

The New York Tribune raises this interesting question, and suggests that if such a thing were possible the Japanese would be, of all in the world, the very people to undertake the job. There are now supposed to be in Port Arthur harbor five Russian battleships: the Retvizan, Peresviet, Poltava and Pobieda. At the beginning of the war Russia had seven of these craft in the Far East, but the Petropavlovsk was sunk in deep water by a mine; the Czarévitch took refuge and was dismantled at Tsingchou, and the Sevastopol, which tried to escape from Port Arthur just before the capitulation, was torpedoed by the Japanese and sunk. Accounts differ as to whether she went down in deep water or shallow.

Of the remaining four the Retvizan and Pobieda are said to be so badly injured as to be either worthless or incapable of use without rebuilding. The Peresviet and Poltava however, might be raised and repaired with less difficulty, and the same thing is true of the cruisers Pallada and Bayan. It is only a little more than three months since the Japanese got Port Arthur, and if they have actually accomplished this feat of putting these ships in condition it is indeed a wonderful achievement. However the safest assumption is that they have done nothing of the kind, and that the coming battle will be fought with only the ships that have all the time belonged to the Mikado's navy.

The Literary editor of the Kansas City Star begins his review of Andy Adams' latest book with a sentence containing 176 words, after which he proceeds to praise the novelist's clear, direct style. Evidently he believes that clear English is all right for a novelist, but not good enough for a reviewer.

Commissioner Garfield asked the Standard Oil people in Kansas, "Why are your tax renditions less than four million dollars when you assert you have spent more than \$10,000,000 in the state?" Another piece of impertinence.

"What does Mr. Rockefeller expect to get from his church contributions?" asks the St. Louis Globe-Democrat. For one thing, he gets the material for compiling a scrap-book of caustic comment on himself.

Press Opinions

SALOON LAW IN MASSACHUSETTS.

In Massachusetts there is not only Sunday closing of saloons but other restrictions, namely, that there can be only one entrance to a saloon. There is no way out except the one way in. There is no door leading upstairs or down, to the back or to the side. A person going in is in the fix of a bar fly going into a bottle—there is no way to get out except to come back through the neck, or door. Nor is a screen permitted before the door nor opaque glass in the windows. Every one who "lines up" to the bar may be seen from the outside. And those laws are enforced. Perhaps that is what the brewers will have to encounter in Missouri if they insist on trifling with public opinion.—Kansas City Star.

TRYING TO DEPRECIATE PATRIOTISM.

It is not strange that the Chicago "Boaters" struck when their pay for registering as voters was reduced from 25 cents to 15 cents a head. "Honest pay for honest work" was their demand; and in the end it was conceded. Trying to depreciate the market value of patriotism is a trick that deserves to fail.—Providence Journal.

NO LADDERS NEEDED.

Adam was 14 feet high and weighed as many hundred pounds, while Eve was only 12 feet high and correspondingly light—so says a Utah evangelist, and no one can really dispute his statement. The hypothesis will admirably explain how Eve was able to pick the apple without climbing so long before the invention of step-ladders.—Boston Herald.

WOULD GAIN SOMETHING.

Nicholas II. declares that if he has to sign a peace treaty he cannot remain czar. Perhaps not, but he might feel at liberty to leave his hiding place under the bed, and that would be something.—Providence Journal.

Near to Nature

BOOZE IMPROVES.

Mr. E. P. Booze made some tasty as well as useful improvements in appearance of the store. In its present condition there is a room for luncheon. Well, Mr. Booze, let the good work go on.—Colorado Springs Western Enterprise.

THE TIMES IN COLORADO.

Gus Landholm took advantage of the storm Wednesday by making a visit to the Queen City. Gus says he has not got time to go any other time.

J. A. Johnson has suspended operations on his mine and will now turn his time to playing and planting.

P. O. Nelson has got the foundation of his new residence started and expects to have it finished by the time snow flies again if the men would just work one day a week.—Jefferson County (Colo.) Graphic.

RESULT OF PERSISTENCE.

Mrs. James Abbo and Mrs. John Kirby of Morrison, Colo., were the guests of Mrs. J. D. Babcock Thursday and Friday of last week. If Jim and Jack hadn't been telephoning most every hour for them to come home they would have been here till now.—Jefferson County (Colo.) Graphic.

PATRICK ALARMED.

H. R. Patrick heard the newboys last evening vociferously crying, "Kittopatin Disgraced," and immediately his face got white. He thought they said "Patrick Disgraced." Then he hunted up as many of the boys as he could find and told them to either change the cry or speak it clearly, for he was known in this town and he didn't want to be confounded with the Russian branch of the family.—Phoenix (Ariz.) Republican.

How Great Loans Are Sold

Something About the Machinery of a Loan Flotation—The Question of Guaranteeing a Market, and of Finding That Market Afterward—The Underwriting Syndicates and the Syndicates of 1901.

NO FOREIGN loan as large as New York's half of the \$150,000,000 Japanese issue, placed recently, has ever been floated in the United States. Our subscription to the Japanese loans of 1904 were respectively \$25,000,000 and \$30,000,000; last year's Cuban loan took \$35,000,000. Of Mexico's \$110,000,000 loan of 1899, \$25,000,000 was offered here. The successful placing of \$75,000,000 in the new Japanese 4 1/2 per cents had, therefore, an importance apart from the question of the eastern war and the credit of Japan. It has caused a good deal of inquiry, in and out of Wall street, as to just what steps a banking house takes to introduce such a loan, and how it guarantees against failure of the issue.

The Initial Trading.

The first step of a banking house in such an operation is to form an underwriting syndicate. Every great banking house has wealthy customers and wealthy business connections; it must confer with them, as to the possibility of floating the new loan at a given price, and must be assured of their cooperation even before it makes its bid. When the borrowing government makes its award, the successful bidder is bound to his contract. The recent dispute between the Russian government and the Paris syndicate seems to have been possible because no formal bid and no formal award had been made; there was only a general understanding. The underwriting syndicate obligates itself to take its contracted percentage of the loan, if the investing public does not do so. Each member of the syndicate gives a pledge in writing, for a definite amount, which he may be called upon to advance in cash pending the sale of the securities. A member of the Japanese bond syndicate who participates to the extent of \$1,000,000, is liable to be called upon for all or any part of that amount at the option of the managers. In the same way, he could be required to take \$1,000,000 of the bonds at the syndicate price if the securities could not be placed elsewhere.

Thus there is always a risk attending the venture. In this, the syndicate for a public loan does not differ from the famous "underwriting syndicates" of 1901 and 1902 in the new industrial amalgamations. Where it does differ from those nowadays rather discredited operations is in the fact that a government loan, or a new bond of a long-established corporation, is a security whose market value can be accurately guessed at in advance. The industrial "flotations" of 1901 undertook very generally to create a wholly artificial market; to establish and maintain, by sheer brute force of capital and stock exchange manipulation, prices which investors would never otherwise have bid; and thereby to "work off" at relatively high valuations, not only the preferred stock, but common shares which had often been given away to the promoters. This broad distinction needs to be kept carefully in mind when talking of "underwriting syndicates."

NOT VERIFIED.

A Bushel of Affidavits Would Not Help Belief.

A fine example of witty devotion and of the value of presence of mind in times of danger occurred on the farm of Judge Delehanty, in Kilkenny township, in this county.

A 200-foot well on the place had run dry, and Lawrence Tingley, for \$50 undertook the job of digging it down to water. He placed a windlass over the well and started operations by having his assistant, Timothy O'Rourke, let him down into the well in a bucket.

When the bucket was down about fifteen feet from the top O'Rourke allowed his hands to slip on the handle of the windlass. The handle left his grasp, whirled around once, struck him under the chin, and knocked him senseless. The release of the windlass and its sudden stoppage again when the handle struck O'Rourke caused the rope to break and the bucket to fall to the bottom of the well. Tingley saying himself for a moment by hanging with his finger ends in the crevices of the stone wall.

But it could not be for long. The effort was too great, and a minute more would see Tingley following the bucket to the bottom, down to certain death. At this moment Mrs. Tingley, bringing the men their luncheon, arrived on the scene. She saw the motionless body of the assistant near the well, and, glancing down, perceived her husband clinging to the wall. She fully realized his peril. With vigorous arms she pulled the windlass away from the well, laid two strong planks close at hand, and taking up a large piece of dynamite that was lying near, dropped it into the well. In a second it struck the bottom and exploded. There was parting of the earth as from an earthquake, and then, in a cloud of dust, smoke and gas, Tingley shot out of the well like a cannon ball, and up 20 feet into the air. Instantly his devoted wife laid the planks over the top of the well, and descending, Tingley, uninjured, fell upon their elastic surface and was saved.

The hired man had a new full set of false teeth smashed by the blow on his chin, but the dynamite set the water in the well to flowing again, so Tingley bought his employee some new molars out of the \$50 profit on the job.—The Sioux (Minn.) correspondence Chicago Chronicle.

Men Past Sixty in Danger.

More than half of mankind over 60 years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for 20 years. Although I am now 81 years old, The Hefley-Arcularius Drug Co."

It often happens that several syndicates are formed in competition, when an attractive bond offering is at hand. Last April, when Cuba's \$35,000,000 loan was under negotiation, three or four strong New York banking houses had representatives in Havana. Each put in a bid, and the contract was almost closed with one group of bankers, when a rival syndicate overbid it at the last moment, and secured the loan. In the same way, last week, a Berlin syndicate did its best to secure the Japanese loan. It was said to have bid a higher price than the successful syndicate, and Berlin undoubtedly expected to get the loan. But the fact that Japan's two previous loans had been successfully floated in London and New York had, no doubt, a great deal to do with securing the acceptance of the English and American bid. Japan, too, it has been explained, was willing that the London and New York bankers who had stood by it in the issuance of the previous loans should clear a handsome profit on this one, and consequently agreed to the terms with very little haggling.

Process of Marketing.

The chief underwriting syndicate often organizes smaller syndicates of bankers, which go about to find a market for the securities with their own clients, or buy them outright for a rise. Sometimes these smaller syndicates get "held up," with the bonds after the original syndicate has disposed of them. This happened a month ago with a \$75,000,000 railway bond issue. It was oversubscribed at the start. Expecting to find a quick market for the bonds, numerous small banking firms put in large bids, and then had difficulty in caring for the allotments. In the rush to realize on these holdings, the bonds, which had gone to a premium, soon declined below the subscription price, with heavy loss to the holders. But it is through the large and small syndicates that a loan is finally lodged with the actual investors, the chief syndicate advertising the issue, and securing as many individual subscriptions as possible. Generally a syndicate is paid a percentage on the selling price of the entire issue, but in the case of one recent offering an ingenious device was resorted to whereby the members received a commission for only a portion of the loan, the managers taking the rest. As the bonds went to a premium almost immediately, the managing bankers made large profits by this unusual stipulation.

Some syndicates have never paid in a dollar, but it is customary for the managers to call for 5 or 10 per cent of the subscriptions, to defray preliminary expenses, or to make initial payments to the borrowers. The profit on these underwritings varies according to the securities and terms of the syndicate agreement. The bankers who took the Japanese loan will in all probability receive \$750,000 for the underwriting alone. That is 1 per cent on the \$15,000,000 underwritten.—New York Evening Post.

SAILORS USE QUEER TERMS.

The Curious Lingo Which Passes for English Aboard Battleships.

The timeworn growl of the disgruntled bluejacket, "Why did I ever sell my farm and go to sea?" shows the trend of the sailor's mind toward the peaceful occupation of his rustic brother, and may account for applying terms agricultural to things nautical. The casual visitor to a warship is always mystified by seeing what appears to be a bale of hay in the fore hold, and his curiosity is not abated when told that it is used to feed the "jackasses," kept, appropriately, in the "manger." His shrunk credulity requires normal dimensions when it is explained that "jackasses" are canvas bags filled with oakum, which are forced into the hawse pipes to prevent water from entering at sea.

Neither is a "Flemish horse" a rare breed of equine, nor a "bride port" a place for hitching him; the former is a foot rope for men to stand upon when furling sail, and the latter is an air port in the bows through which towing hawsers used to be led. The "saddle" of the bowsprit completes the riding outfit of the ship.

The menagerie of a man-of-war contains a "cat" and "fish," both of which are used to "weigh" the anchor; "catheads" where the lookout of sailing ships stands his watch; "wildcats," which, with "whelps," hold the chain on the capstan, and the "bees of the bowsprit." On some days it is possible to find a "catspaw"—a sudden puff of wind—and a "landubber" can easily "catch a crab" in pulling a boat; indeed, it is hard to let one go without unshipping the oar.

"Dog watches" are of nightly occurrence between 4 and 8 o'clock, when the usual four-hour watch is split into two parts. The dog watches are supposed to get their name from the fact that they are "cur-tailed," and not because the dog's tail, Sirius, keeps those hours. When the gunner orders his mates to "clean the daspots," he is not using polite profanity, but directing the cleaning of a part of the gun recoil cylinder. The "blow" of a galling gun may assist in turning the "rod" for the enemy, but not in a literal sense. Nor do the "tell-tales" of the engine room give it away. Instead, they peacefully record the revolutions of the screws.

The "propellers" are usually on a "strut," but it is not the vulgar parlance for saying they are angry. The strut is the steel arm that holds them in position. Ship's masts, like men, have "partners" which, though wooden, strengthen them and make them firm. These are played with pitch. Avulgers have "backbones," "strongbacks," "shark's mouth," "dog's ears" and "bearings."

The "trimming tanks" are huge compartments for holding sea water which may be let in to change the trim or inclination of the ship, due to the fact that the coal may have been used from only one side, giving the ship a "list." A queer commodity in the engineers' storeroom is "loofs," a kind of Japanese sea cucumber, used for a filter in the boiler. Ground glass is also acquired to grind valve seats and bear-

MAKING POWDER

makes home baking easy. Nothing can be substituted for it in making, quick and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry.

PRICE BAKING POWDER CO. CHICAGO.

A JAPANESE JOKE.

The wardroom "country" is the space around officers' quarters. The "hammock nettings" are no more an affair of thread mesh than is the "main sheet," a part of the sail; the former being storage space for the crew's hammocks when not in use, and the latter a rope made fast to the clew or corner of the sail. Even anchors have "shanks," "rings," "crowns," "arms" and "flukes."—Detroit Tribune.

For the first time in history, it is said, one of the pyramids has been struck by lightning. The pyramid struck is that of Khephren, and the fact is another illustration of the gradual change that is being brought about in the climate of Egypt by the great dam at Assouan and the irrigation works made possible since British occupation of the Nile valley.

Mr. Takahira, the Japanese minister at Washington, has a new story which he tells with great glee. He says he heard two women discussing his nation. "The Japanese," said one of them, "ought to be excluded from the country. Their young men come here to school, and no sooner do they arrive than they begin a systematic course of cheating."

"How is that?" asked the other. "They only pay tuition for one," said the complainant, "and they learn enough for two or three."—Kansas City Journal.

Many phrases which are looked upon as "slang" have very respectable origins. For instance, "escaped by the skin of my teeth" is a sentence used in the twentieth verse, nineteenth chapter of Job.

MRS. MARCEL CONKLIN LECTURE EXPRESSES LARGE AUDIENCES

Those who attended the lectures given at the First Congregational church yesterday afternoon and last night by Mrs. Mabel L. Conklin were deeply impressed with the "White Cross" lecturer and many expressed the opinion that her series of addresses in this city would influence the religious people of Colorado Springs as did the week's work of the Rev. J. Wilbur Chapman a few months ago.

Mrs. Conklin talked to women only yesterday afternoon on "What to Tell the Children" and last evening the church was crowded with both men and women who listened to an excellent address on "Christian Purity." Mrs. Conklin handled her subjects with broad understanding and at the same time used a delicacy and forcefulness seldom attained by public lecturers.

NEW COMPLAINT PASSED AWAY

MR. AND MRS. DILTZ SUE STREET CAR COMPANY FOR ALLEGED INJURIES TO CHILD.

Edward F. Wright, who for 35 years has been one of Colorado Springs' most prominent residents and business men, died yesterday morning at 10 o'clock at his home, 115 North Wahsatch avenue. Death was caused by diabetes. Funeral services will be held tomorrow afternoon at 3 o'clock at the First Baptist church and interment will be at Evergreen cemetery. The Rev. James B. Gregg, of the First Congregational church, will officiate at church and grave in the absence of Mr. Wright's pastor, the Rev. Edward Bratton.

Mrs. Wright came to Colorado Springs in 1870 from Wisconsin, where she was born 47 years ago. From 1889 to 1892 she was clerk of the El Paso county court and was one of the organizers of the El Paso County Abstract company. When the latter company was absorbed by the Colorado Title and Trust company, Mr. Wright became secretary of the abstract department, which position he held at the time of his death. For a number of years he has offered a gold medal for a declamation contest at the high school.

Mr. Wright was unmarried and is survived by a brother and two sisters, J. Albert Wright, of 21 South Corona street; Miss Gertrude Wright, of 115 North Wahsatch avenue, and Mrs. John McColl, of Idaho Springs.

Candy Easter eggs lettered to order at Muehl's.

FORM MOUNTAIN CLIMBING CLUB EARLY THIS SUMMER

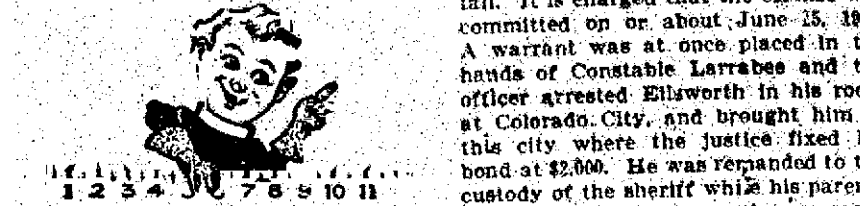

Colorado Springs is to have a mountain climbing club modeled after the Appalachian club of Boston and the Sierra club of San Francisco. The Chamber of Commerce will start the club early this summer. The first step will be the issuing of a pamphlet giving the various walks and climbs around the city and the time necessary for each one. The material for the work is already in the hands of the secretary of the Chamber of Commerce and only needs to be edited to be ready for printing.

COMMERCIAL CLUB MANAGER SUE STREET CAR COMPANY

Manager J. B. Davis was found guilty in the police court last evening of maintaining a disorderly house and fined \$100 and costs. Judge S. H. Kinsley, counsel for the defendant, at once gave notice of an appeal to the county court, and the case will be taken up at once.

The defendant is the manager of the Commercial club, which was closed by the police several days ago, and which has been doing business in the Opera House block. Five witnesses were called to the stand to testify, including the defendant himself. In question whether he was present or not, he made a strong argument in support of the contention that the place was a disorderly house under the law.

The testimony went to show that on the night of March 28, Mrs. Stone and another woman, referred to as Effie, went to the Opera house and during a wait between the acts, Meyers and Nesbitt sent a note to the two women asking them to make an appointment after the show. The four met at the entrance to the opera house and the men escorted the two women to one of the rooms of the Commercial club where the four remained the rest of the night, carousing until about 9 o'clock the next morning. During this time glasses were broken and, according to the counsel for the defense, the proceedings were scandalous, but not sufficiently so to constitute a disorderly house.

BETTER CARRIERS FAVOR THIS CITY FOR A \$300,000 HOME

Associated Press dispatches from Cleveland, Ohio, where the officers' council of the National Association of Letter Carriers is in session, state that while Colorado Springs has not been officially selected as the site for the proposed home for the sick and invalid letter carriers, this city will probably be recommended by the committee. To gather data on the subject and get the matter before the national convention at Portland, Ore., next September in proper form a special committee has been authorized to investigate the matter.

That a little boosting is all that is needed to bring to Colorado Springs the national letter carriers' home is the statement of Brooks Irone, the delegate to the biennial convention from Colorado Springs. The home will probably cost in the neighborhood of \$300,000. The financial benefit that the Letter Carriers in session, state that the city's printer's home with its annual expenditure of \$50,000 has been to the business interests of Colorado Springs proves the advantage that would accrue from the location of another and larger national home on the outskirts of this city.

Mr. Irone was a delegate to the convention two years ago and since that time has been indefatigable in his efforts to bring the home here.

President Keller was assured last summer by State Engineer Carpenter that Colorado would donate a site of 80 acres just south and east of the printer's home, and it is presumed that this offer will still hold good. Denver has offered a 20-acre site of land and Texas is also after the home.

CIRCUS PARADE GONE FOR EVER

MANAGERS AGREE TO FOREGO STREET PAGEANTS AND SMALL BOYS HAVE KICK COMING.

The circus parade is a thing of the past. The edict has gone forth, say press dispatches from J. A. Bailey, owner of the Barnum shows, that time is too precious to waste in parades and other managers of the "biggest shows on earth" have followed suit and decreed against the "glittering, glorious pageant a mile in length."

Never again will the two small boys be allowed to carry the base drum along the dusty streets on a hot summer morning with the sure reward of a ticket to the "big show" and a possible present of a long glass of pink lemonade. Nevermore will the queens of the sawdust ring pass in proud disdain through the admiring crowd unaware of the fact that the perspiration has washed little courtes through the paint and that streaks of dirt cross their peach-bloom cheeks. They will all be missed. The manager in the carriage in the van smoking a long cigar. The clown at the tail end trying to make his voice heard above the soul-barrowing whistle of the callopie.

QUIETLY WEDDED IN PRESENCE OF FRIENDS

A pretty home wedding was solemnized Wednesday evening at the residence of Mr. and Mrs. R. H. Johnson, 1411 Lincoln avenue, when their daughter, Miss Ethel, became the wife of Ancil Clyde Swisher. The Rev. Robert D. Graham performed the ceremony in the presence of a large number of friends and relatives. Mr. and Mrs. Swisher will make their home in Colorado Springs after a short wedding trip to other parts of the state.

MOYER'S ALLEGED WIFE WAS UNDER QUARANTINE

Word was received in the city yesterday that Ira Moyer, who was arrested here some time ago and taken back to Keokuk, Ia., to answer to a charge of bigamy, has been released on bond. As soon as he secured his release he went to Milwaukee, Wis., and attempted to see the woman claiming to be Mrs. Cecelia G. Moyer, his former wife, with a view of demanding an explanation of her part in the affair. He was unable to see the woman as she is confined to the house with diphtheria and is under quarantine. Moyer denies that he was ever married to the woman.

IL EXPERTS EXAMINE SITES FOR THE WELLS

W. P. Epperson, manager of The Colorado City Oil, Gas and Water Co., accompanied by Anthony B. B. L. Morrison and J. H. Goff, was engaged yesterday afternoon showing a party of oil well borers from Boulder and the oil territory off-hands over the ground and the opinion of the geologists from the public and improve its appearance.

ANK BUILDING WILL HAVE NEW ENTRANCE

The present entrance to the new bank building is to be changed. What is now the entrance to the First National bank will be remodeled into a stairway leading to office rooms above from Colorado avenue instead of Fifth street as is at present. The entrance to the bank will be made by double doors on the corner which are now windows. Other changes will be made on the interior of the building which will be more accommodating to the public and improve its appearance.

COLORADO CITY NEWS NOTES.

Mrs. John Kehe of Pueblo is in the city visiting friends.

Mrs. Anthony Bott will leave in a few days on an extended visit to friends in Buffalo, N. Y.

John R. Watt continues to improve after an operation at the Gluehner sanatorium for appendicitis.

Rev. R. A. Carline of Denver will deliver a lecture on "The Old Woman and the New," next Thursday evening at the First M. E. church. The lecture will be free.

R. E. Magill of Colorado Springs who has held a position with W. P. Epperson for the last two years has moved to this city where he will make his permanent home.

Local deposits in the First National bank during the last month have exceeded the deposits of any former month since the bank was established by over \$10,000.

B. L. Morrison has opened a kiln of lumber blocks of exceptional good quality, a part of which will be used by the blacksmith department of the Millard and by the Hassell Iron works of Colorado Springs.

Guy F. Burwell and bride arrived from Kansas City yesterday on a visit to the bridegroom's parents, Mr. and Mrs. Burwell, where they will remain for a week when Mr. Burwell will resume his duties as cashier of the Limon county bank.

John Taylor, James Hope, and James Moore were each fined \$10 and costs by Police Magistrate Finkler yesterday for being intoxicated. Moore was offered his liberty if he would leave town, but he was trembling from the effects of drink and apparently on the verge of the delirium, he declined to go.

MAINTENANCE NEWS

A. M. Wilson has been in Denver for a few days.

Arbor day exercises were observed in the Manitou schools yesterday afternoon.

Mrs. E. E. Brown of Green Mountain Falls was the guest of Mrs. B. Reynolds yesterday.

H. A. Woods of Indianapolis, Ind., have leased the Fox cottage on Ruxton avenue for the season.

Z. M. Sadie has leased the William Thompson store on Ruxton avenue, and will place a stock of china here.

J. B. Newman and wife of Indianapolis are at the Cliff for a few days having spent some time on the coast.

The Misses Scoles who have been the guests of Mrs. F. D. Fox for some time have returned to their home in Ripon, Wis.

J. H. Wilcox and wife and A. C. Wilcox of Lyons, Wis., are at the Cliff being on their way home from a visit in California.

Services at St. Andrew's Episcopal church today are: Children's services at 9 o'clock; three hour services from 12 until 2.

A ball game will be played between the basketball school team and the Manitou high school team this afternoon on the Manitou grounds.

"The Church of Our Lady of Perpetual Help," on Ruxton avenue, services today are: High mass at 9 o'clock; evening service, sermon on "The Passion" at 7:30. Services Saturday from 8 to 10 p. m., ending with high mass.

The delivery horse owned by A. M. Wilson became frightened this morning while standing in front of J. B. Glasser's residence on Grand avenue and running down the avenue fell, breaking its leg and in this condition it turned to the Williams canon and went for some distance until a shot added its sufferings.

AMUSEMENTS

"ON THE RIGHT TRACK."

Two of the best pleased audiences that have assembled at the opera house during the engagement of the Marie Fountain company yesterday witnessed the production of "A Legal Wrong." The production made a pronounced hit with the patrons of the opera house and it is certainly one of the very best comedy dramas ever put on here. The company has never done better work than in this bill and the specialists were unusually good and the result was a performance in every way worthy of the applause given.

Tonight the company presents "On the Right Track" another comedy drama and one which the Fountain company themselves own. It has been one of the biggest successes of anything the company has ever offered and the public always welcomes the production. Bobby Fountain has in Harry Denbigh, one of the best parts he has ever assigned and his work always wins favor. The favorites of the company are all ready cast, the play is finely staged and the result is a performance which will in all respects please the board rates.

THE SECOND IN COMMAND.

Repeating shots are now on sale for the forthcoming return engagement of White Whittlesby, the new Idaho star, who is to be seen next Monday evening in the favorite play, "The Second in Command," which Whittlesby is now appearing in crowded houses in Denver. Whittlesby first came to this city last year, he was a stranger here but he won instant recognition and a big following by his splendid acting and artistic methods. From all parts of the country, the same report is received that White Whittlesby has made the sensation of the theatrical season and that his appearance in Colorado is a great success. He is certain to win a big financial success during the next few seasons. He has a new star been so superbly equipped as his Whittlesby. He has been furnished with the best of plays, a supporting company of clever artists and a wealth of scenery and stage effects.

"THE VIRGINIAN."

Thousands of lovers of sound, sincere, convincing drama have read Owen Wister's gripping story of "The Virginian" and it is almost safe to say that the more discerning and critical the reader has been, the more he has enjoyed the book and the more genuinely in love he has taken with the cowboy who is its hero. It is seldom in recent years that any character of fiction has taken so firm a grasp on the heart-strings of the better class of readers as has this wild, young American. It is therefore not surprising to find that the announcement that the dramatization of the story is to be offered at the Opera House on next Wednesday, in New York and other eastern cities the stage version of "The Virginian" has been met with real delight and it is not difficult to believe the report from the theater that the receipts for this play have been unusually heavy. "The Virginian" has lived the life of the typical cowboy and is far removed from the conventional "good-buddy" type of story. The story deals with the life of a strange young man, who refuses to surrender to him until he has shown himself to be his master in some surprising ways that irresistibly draws her to him. The play that has been made from the book is said to be dramatic and powerful in its development and it has retained the charm and interest of the original story, one can hardly imagine its being anything but an overwhelming success.

Cures Coughs and Colds.

Mrs. C. Peterson, 625 Lake St., Topeka, Kas., says "Of all cough remedies Ballard's Horehound Syrup is my favorite. It has done and will do all that is claimed for it—to specifically cure all coughs and colds—and it is so sweet and pleasant to the taste I can give it to my children."

Sold by Hefley-Arcularius Drug Co.

BOUGHAR DEVEREUX IS RECOVERING FROM OPERATION

Dr. Macalester, who has just returned from Salt Lake City where he has been attending Boughar Devereux, who was operated upon for appendicitis recently, and reported his patient is doing well and there is no fear felt for his recovery.

Boughar and William Devereux are members of the famous Glenwood Springs polo team and have the reputation of being two of the best polo players in the country. They were members of the Princeton polo team and were the prime movers in forming the Interscholastic Polo league. Since their graduation from the New Jersey college last year they have been working in one of the copper mines owned by their father.

FRANK DAVIS MUST ANSWER TO CHARGE OF GRAND LARCENY PREFERRED BY WOMAN.

Invitations are out for the marriage of John Francis England of this city, and Miss Martha, daughter of Mr. and Mrs. Daniel Gray Shelby, of Houston, Texas.

The wedding will be solemnized at 8 o'clock on the evening of Tuesday, May 2, at the First Presbyterian church, Houston. Several hundred invitations have been issued and the wedding will be one of the society events of the season.

Mr. England is a rising young attorney and is well and widely known in this city. For many years he has been associated with William O'Brien and Richard Bolles. The bride, Miss Shelby, a charming young lady, whose winning disposition won for her a large circle of friends, has been a frequent visitor here. She took a prominent part in the social affairs of the younger set, and was extensively entertained.

And one of my subjects will demonstrate, give away and sell my great English sweet meat for a week beginning today, at

The Miller-Burcaer Drug Co.

BOUND OVER TO DISTRICT COURT

FRANK DAVIS MUST ANSWER TO CHARGE OF GRAND LARCENY PREFERRED BY WOMAN.

Frank Davis, a bartender at the Commercial club, was taken before Justice Ruby for hearing upon a charge of grand larceny yesterday, and was bound to the district court in the sum of \$300. Bond was at once furnished by himself and J. B. Davis, the manager of the club.

Frank Davis is charged by Mrs. Lillie Stone with having stolen a diamond ring valued at \$40 from her on the night of March 29. It is alleged that Mrs. Stone and a friend went to the club rooms after a performance at the opera house and secured liquid refreshments, and that while they were in the club rooms the ring was taken from her finger by Frank Davis.

ELEVEN-YEAR-OLD BOY WAS WINNER

GEORGE STEELE TOOK SILVER MEDAL IN DECLAMATION CONTEST—CLIFTON LIERD SECOND.

George Steele, the 11-year-old son of Mr. and Mrs. W. S. Steele of 1824 Colorado avenue, won the Doremost silver medal contest held at the Second Presbyterian church last night under the auspices of the W. C. T. U. The contest was participated in by 10 boys and girls who were trained by Mrs. M. Q. West and the declamatory efforts were all well received by the large audience present. Clifton Lierd also won honorable mention at the hands of the judges. Attorney George Gardner, Rev. James C. Rawlings and Mrs. W. Q. W. Ward.

At the end of the contest a short program, consisting of solos by A. J. Biel and F. W. Young, a duet by Miss Ina Graves and Miss Pearl MacMillan, and two recitations—by Mrs. West, was carried out. Several more silver medal contests will be held during the coming summer after which several gold medal contests will be held. These will be followed by a grand gold contest and finally a diamond medal contest will be held.

Those who took part in last night's contest and their subjects are as follows: Isabella Wilson, "The Little Shoes Did It"; Inez Eaton, "The Old Violin"; Miro Parks, "The Brave Boy"; Nellie Weber, "The Little White Shoes"; Wayne Pollock, "In the King's Audacious Ban"; "Good Night, Papa"; Clifton Lierd, "They're Mixing Politics With Religion"; Marie Nesbitt, "The Sober Hat"; Leroy Miniumi and George Steele, "Plea for the Children."
